

Fractions

What are mixed numbers?

A *mixed number* is a whole number combined with a fraction.

These are examples of *mixed numbers*: $5\frac{1}{2}$, $11\frac{3}{4}$, $2\frac{2}{5}$

For example, if you have three pies and somebody eats half of one, here is what you have left:

To represent this situation, use the mixed number: $2\frac{1}{2}$
