Southwest Wisconsin Technical College 2026 Annual Security & Fire Safety Report

Introduction

Southwest Wisconsin Technical College (Southwest Tech or the College) has a proud history of providing a safe learning environment for its students. The safety of our students and staff is important to us. A wide variety of policies and procedures have been developed over the years to ensure the health and safety of students, employees, and visitors to the campus. In addition, numerous federal and state laws have been adopted in regard to student and employee safety. The Jeanne Clery Campus Safety Act requires that specific policies, procedures, and information be provided to ensure the health and safety of persons concerned with campus life.

In addition, the Campus Sexual Violence Elimination Act (SaVE Act) was passed in March 2013, as part of the Violence Against Women Reauthorization Act (VAWA). Southwest Tech is committed to complying with the amendments and additions encompassed under the Campus SaVE Act to address domestic violence, dating violence, sexual assault, and stalking.

Southwest Tech's Grants & Compliance Manager prepares this report to comply with the Jeanne Clery Campus Safety Act for the period from January 1, 2025, to December 31, 2025. This report is prepared in cooperation with the local law enforcement agencies within the jurisdiction of the Southwest Tech campus. Each law enforcement agency provides crime statistics for addresses in their service location where Southwest Tech has offered courses and been in control of the location for the duration of the course.

Each year, a notification of availability is distributed to all enrolled students and employees via email, portals, website or in-person. The notification is accessible to all enrolled students and staff and is made available on the college website for prospective students and employees.

Questions regarding this report or a copy of this report may be obtained from the Grants & Compliance Manager located in room 316 or by calling (608) 822- 2768.

Annual Equal Opportunity/Affirmative Action Notice

Southwest Wisconsin Technical College 2026 Annual Security & Fire Safety Report

About Southwest Wisconsin Technical College

Southwest Wisconsin Technical College is one of 16 technical college districts operating within the Wisconsin Technical College System. The Southwest Tech District serves a predominantly rural area of approximately 3,800 square miles in southwest Wisconsin and includes Grant, Crawford, Iowa, Lafayette, and Richland counties, as well as portions of Dane, Green, Sauk, and Vernon counties. The District serves a population of approximately 125,000 residents. Thirty (30) public K-12 school districts are located within the Southwest Tech District.

Noncampus Reporting

Southwest Wisconsin Technical College does not provide law enforcement or security services at its noncampus locations. Criminal activity occurring at noncampus locations or elsewhere outside College campuses is investigated by the appropriate local, county, state, or federal law enforcement agency having jurisdiction. The College maintains cooperative relationships with local law enforcement agencies and works collaboratively to address matters affecting the safety and security of students, employees, and the community.

Southwest Wisconsin Technical College may operate educational locations that are classified as noncampus property for Clery Act reporting purposes. The College works with the appropriate law enforcement agencies to obtain crime statistics for those locations as required.

Southwest Wisconsin Technical College does not have any officially recognized student organizations that own or control noncampus property, including off-campus student housing facilities.

College Access and Control

Southwest Wisconsin Technical College uses a fob-access locking system and key system consisting of both online and offline locks. This system enhances access control throughout campus and allows for a prompt response when an access card is lost, misplaced, or stolen. All access cards and keys remain the property of Southwest Wisconsin Technical College and must be returned upon request by an authorized College official.

Southwest Wisconsin Technical College facilities are generally open to students, visitors, employees, contractors, and the public from 6:00 a.m. to 10:00 p.m. Outside of these hours, College facilities are closed and access is restricted to authorized personnel whose job responsibilities require their presence on campus, including Facilities, Safety and Security, Information Technology Services, Athletics, and other designated employees. Access outside normal operating hours is limited to official College business or emergency situations. Individuals requiring after-hours access must obtain prior authorization from the Executive Director of Facilities, Safety, & Security.

Campus buildings and facilities are checked daily for potential security concerns, including malfunctioning locks, unsecured exterior doors, burned-out lighting, and other safety-related

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

issues. The College's night shift personnel conduct nightly checks of exterior doors to verify that facilities are secure. Identified issues are promptly reported for corrective action. Facilities, Safety and Security and Information Technology Services personnel also monitor the College's closed-circuit camera systems to help deter unauthorized access, enhance personal safety, and protect College property.

Southwest Wisconsin Technical College and the Southwest Wisconsin Technical College Real-Estate Foundation (REF) maintain a memorandum of understanding authorizing the College to manage REF-owned student housing. Student housing units utilize keypad access systems and are managed and monitored by the Resident Life Manager, Student Life Coordinator, and the Facilities, Safety, and Security Office.

Campus Law Enforcement Policies

Southwest Wisconsin Technical College does not maintain a campus police department or employ commissioned law enforcement officers. Therefore, College personnel do not have arrest authority and rely on local, county, and state law enforcement agencies to investigate criminal incidents and take appropriate enforcement action.

The College has entered into a Memorandum of Understanding (MOU) with the City of Fennimore for the 2026-27 academic year to provide a liaison officer on campus for approximately three to five hours per week. The liaison officer serves as a resource to students and employees and provides a visible law enforcement presence on campus. Responsibilities may include interacting with students and employees, conducting investigations, taking appropriate enforcement action when necessary, providing education and resources related to crime prevention, personal safety, and alcohol and other drug issues, and making referrals to appropriate community resources.

The Facilities, Safety and Security Office maintains a strong working relationship with local and state law enforcement agencies. The Fennimore Police Department regularly patrols the public property included within the College's Clery geography. Local and state law enforcement agencies investigate criminal activity occurring on campus and in College-managed student housing facilities. Refer to the Clery Geography Map below for the applicable patrol area.

Clery Geography

The Clery Act requires colleges to disclose statistics for reported Clery crimes that occur: (1) on campus, (2) in or on non-campus buildings or property that the College owns or controls, and (3) on public property within or adjacent to the Southwest Tech campus. The Clery Geography Map categories define Southwest Tech's Clery geography. The geographic categories are further defined in the Clery Act Appendix to the Federal Student Aid (FSA) Handbook as follows:

1. *On campus* – (i) Any building or property owned or controlled by an institution within the same reasonably contiguous geographic area and used by the institution in direct support of, or in a manner related to, educational the purposes, institution's including residence halls; and (ii) any building or property that is within

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

or reasonably contiguous to the area identified in paragraph (i) of this definition, that is owned by the institution but controlled by another person, is frequently used by students, and supports institutional purposes (such as a food or other retail vendor).

2. *Non-campus buildings or property* - (i) any building or property owned or controlled by a student organization officially recognized by the institution; or (ii) any building or property owned or controlled by an institution that is used in direct support of, or in relation to, the institution's educational purposes, is frequently used by students, and is not within the same reasonably contiguous geographic area of the institution.
3. *Public property* – all public property that is within the same reasonably contiguous geographic area of the institution, such as a sidewalk, a street, other thoroughfare, or parking facility, and is adjacent to a facility owned or controlled by the institution if the facility is used by the institution in direct support of, or in a manner related to the institution's educational purposes.

Included below are two Clery Geography maps depicting Southwest Wisconsin Technical College's campus.

The College's campus is represented on two separate maps. The first map depicts the campus buildings, student housing, and the Public Safety Complex. The second map depicts the Highway 18 Farm, which was acquired by the College in 2025. The Highway 18 Farm is located within approximately one mile of the campus buildings and is included within the College's campus geography for Clery Act reporting purposes.

The dark blue line indicates the Clery geography boundary and law enforcement patrol area. The light blue line indicates public property adjacent to and accessible from campus. The yellow shaded area identifies the Student Housing Complex.

Student Security Officer responsibilities may include building safety inspections, grounds patrols, enforcing campus parking regulations, fire safety inspections (including fire extinguishers, emergency lighting, and means of egress), eyewash station inspections, medical kit and AED inspections and stocking, and assisting stakeholders during emergencies.

The College utilizes a security camera system to monitor activity within campus buildings and on campus grounds. Recorded footage may be reviewed as needed following incidents or other events occurring on campus. Access to the system is limited to authorized personnel, including the Executive Director of Facilities, Safety & Security, Director of Facilities, Administrative Assistant of Facilities, Executive Director of Information Technology Services, designated Network Administrators, and Student Security Officers when participating in the program.

Members of the campus community are encouraged to report maintenance, safety, and security concerns so they can be addressed in a timely manner.

Behavioral Intervention Team (BIT)

The Southwest Tech Behavioral Intervention Team (BIT) evaluates and addresses student behavior that may be inappropriate or concerning and coordinates college resources to intervene and provide necessary support.

The Behavioral Intervention Team is a cross-functional group of Southwest Tech staff whose mission is to:

- Provide a structured, positive method for addressing student behaviors that impact the college community and may involve mental health and/or safety issues.
- Meet regularly to support students by identifying patterns, trends and disturbances in the behavior of an individual or group.
- Evaluate the nature of a reported behavior or incident to assess the level of risk.
- Determine appropriate course of action to respond to behavioral concerns and initiate intervention or response to prevent a situation from escalating.
- Coordinate resources to ensure a comprehensive assessment response.
- Balance the individual needs of the student and those of the greater campus community.

The team is composed of the Executive Director of Facilities, Safety, & Security; the Student Success & Resident Life Manager; the Student Health Records Specialist; and the Career Services Manager, with Counseling available as a resource. Committee members have training in recognition and conflict management of student concerns. The committee addresses concerns using various methods and strategies such as a team approach, one-on-one, or a mandated referral to an outside professional agency. The result is a plan for success and a win-win for both the student and the college with the student's best interest in mind.

An email alert from the Student Alert System (SAS) is submitted to each team member when a behavioral SAS is received. Some alerts are received in person from a concerned person. One of the Behavioral Intervention Team members will contact the student the SAS was received for in order to investigate and determine the next step in the process. Most behavioral SAS's are referred to the mental health counselor by the Behavioral Intervention Team. For those that are not referred to the mental health counselor, other referrals are made to internal departments and external agencies.

Weapons on Campus

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

The use, concealment, creation, manufacturing or possession of weapons, whether functional or not, in College facilities is strictly prohibited, except as expressly outlined below.

Sworn Law Enforcement and On-Duty Military Personnel

A weapon or potentially dangerous device may be used or possessed, concealed or otherwise, on the campus, grounds, facilities, or buildings at Southwest Tech by a certified sworn law enforcement officer or on-duty military personnel to the extent they are legally permitted to carry weapons in the State of Wisconsin.

Criminal Justice Programs & Clay Target Team

Weapons may be used for authorized academic, training, and team activities by participants in Southwest Wisconsin Technical College Criminal Justice programs and the Clay Target Team at designated facilities, buildings, and training grounds.

Weapons used for these activities may be stored in secured, access-controlled locations on campus, including designated secured storage areas within the Public Safety Building, firing range buildings, and Maintenance Building. These secured storage areas are available to students residing in student housing, as weapons are prohibited within student housing units. Access to these storage areas is limited to authorized College personnel.

All weapons must be secured and locked when not in use and must be handled, transported, and stored in accordance with applicable College policies, procedures, and safety requirements.

Licensed Concealed Carry

Employees, students, and the public cannot bring their licensed concealed carry weapon into campus buildings even if they have a valid permit. If weapons are kept in an unattended vehicle, the vehicle must be locked.

Sex Offender Registry

In accordance with the Campus Sex Crimes Prevention Act of 2000 and the Adam Walsh Child Protection and Safety Act of 2006, Southwest Wisconsin Technical College provides access to information regarding registered sex offenders through the Wisconsin Department of Corrections Sex Offender Registry.

The Campus Sex Crimes Prevention Act amended the Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act of 1994, the Jeanne Clery Campus Safety Act (Clery Act), and the Family Educational Rights and Privacy Act (FERPA).

The Campus Sex Crimes Prevention Act requires institutions of higher education to advise the campus community where information concerning registered sex offenders may be

obtained. It also requires registered sex offenders to provide notice to institutions of higher education where they are employed, carry on a vocation, volunteer, or are enrolled as students. Individuals who are required to register as sex offenders and who are attending or planning to attend Southwest Wisconsin Technical College must complete the [Notification of Attendance form](#).

The [Wisconsin Department of Corrections Sex Offender Registry](#) is maintained by the Wisconsin Department of Corrections and may be accessed through the [Wisconsin Department of Corrections Sex Offender Registry](#) website.

Emergency Response and Evacuation

Southwest Wisconsin Technical College maintains an Emergency Response Plan that outlines the responsibilities of campus departments and personnel during emergencies. The Plan establishes incident priorities, emergency response organization, and specific responsibilities for designated departments and positions. Emergency procedures included in the Plan may involve reporting mechanisms, evacuation, shelter-in-place, lockdown, relocation, and other protective actions as determined appropriate for the situation.

Southwest Wisconsin Technical College also maintains a separate Student Housing Emergency Response Plan for student housing facilities. The Student Housing Emergency Response Plan is available through the College's Learning Management System and is included in the student housing information binder located in each housing unit.

The Core Emergency Response Team (CERT) is led by the Executive Director of Facilities, Safety, & Security and is comprised of College officials with executive decision-making authority and backgrounds in emergency management and response. The safety and well-being of students, employees, visitors, and other members of the Southwest Tech community are the first priority in all emergency planning and response efforts. CERT is responsible for developing and maintaining emergency response plans for the Southwest Tech campus community, with consideration for continuity of operations before, during, and following an emergency.

Southwest Wisconsin Technical College conducts emergency response drills, exercises, and tests on a regular basis to evaluate the effectiveness of emergency procedures and notification systems. These activities may include tabletop exercises, functional exercises, field exercises, evacuation drills, and tests of emergency notification systems. Tests may be announced or unannounced and are documented with a description of the exercise, the date and time conducted, and whether the test was announced or unannounced.

The College's emergency response and evacuation procedures are published on the College website and intranet and is distributed to students and employees annually in conjunction with a test (drill, exercise, and follow-through activity) that assesses the College's emergency

response capabilities.

Effective August 14, 2008, the Higher Education Opportunity Act (HEOA) requires institutions subject to the Jeanne Clery Campus Safety Act to immediately notify the campus community upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, employees, or visitors on campus.

In the event of a significant emergency or dangerous situation, Southwest Wisconsin Technical College will provide emergency notifications to the affected campus community without delay. Notification methods may include email, text messaging, mass notification systems, television and computer monitors, loudspeakers, fire alarm systems, emergency evacuation maps, and other communication methods deemed appropriate to the circumstances.

Upon confirmation of a significant emergency or dangerous situation by a member of the College's Core Emergency Response Team (CERT), the Southwest Tech Emergency Response Plan will be implemented. The Emergency Response Plan establishes procedures for responding to foreseeable emergencies, designates incident command responsibilities, outlines emergency communication procedures, and provides for coordination with internal and external response agencies.

The EOC (Emergency Operations Center) Manager, in consultation with College administrators and, when appropriate, local emergency responders, law enforcement agencies, fire and emergency medical services personnel, or the National Weather Service, will confirm the emergency, determine the appropriate segment or segments of the campus community to receive the notification, and authorize issuance of the emergency message. The Public Information Officer will determine the content of the notification and initiate the notification process using the most effective communication methods available under the circumstances.

Although it is impossible to predict every significant emergency or dangerous situation that may occur, examples that may warrant an emergency notification include:

- Armed or hostile intruder
- Bomb threat or suspected explosive device
- Communicable disease outbreak
- Severe weather
- Terrorist incident
- Civil unrest
- Natural disaster
- Hazardous materials incident
- Structural fire

The EOC Manager and the Public Information Officer will collaborate to develop emergency notification messages. Message content will vary depending on the nature of the incident but will, at a minimum, describe the emergency, provide protective actions or instructions, and direct recipients to additional sources of information. Follow-up information will be provided as needed through the College's emergency communication systems.

Local news media may be utilized to disseminate emergency information to the broader community, including neighbors, parents, and other interested parties. Emergency information may also be communicated through the Southwest Tech website and official social media

platforms. In the event of a major incident, Empathia crisis management services may be utilized to provide support and assistance.

Southwest Tech conducts and documents an annual test of its emergency response and evacuation procedures. A test may include drills, exercises, and appropriate follow-through activities designed to assess and evaluate the effectiveness of emergency response and evacuation plans and capabilities. Members of the Core Emergency Response Team (CERT), in collaboration with Facilities, Safety, & Security personnel, coordinate these activities. During tests, students and employees on campus are expected to participate and receive emergency notifications through one or more College communication systems. These activities provide an opportunity for building occupants to become familiar with emergency exits, evacuation routes, assembly locations, emergency notification processes, and emergency response procedures. Because emergency circumstances vary, long-term evacuation locations are not generally communicated in advance. Decisions regarding relocation sites are based on factors including the nature and location of the emergency, weather conditions, time of day, and the availability of suitable gathering locations. Facilities, Safety & Security personnel may assist in identifying available relocation sites and providing operational information to the Core Emergency Response Team (CERT). Based on the information available, CERT will determine appropriate response actions, and the Public Information Officer will communicate emergency instructions, updates, and relocation information to students, employees, and visitors through appropriate communication channels.

Southwest Tech also conducts two fire evacuation drills annually within College-managed student housing facilities. The Student Success & Resident Life Manager and Executive Director of Facilities, Safety and Security coordinate these drills, which are conducted once each semester. Students receive notification through the College's RAVE emergency notification system and participate in evacuation procedures to a designated assembly location. Following each drill, students and staff review evacuation procedures and fire safety practices.

The Student Housing Emergency Response Plan is included in the student housing information binder located in each housing unit. Evacuation information is also posted on the back of each apartment door.

The purpose of evacuation drills is to prepare building occupants for an orderly and safe evacuation during a fire or other emergency. Drills provide students and employees with an opportunity to practice evacuation procedures, become familiar with available exits and assembly locations, and recognize the sound of the fire alarm system.

The following procedures are used in evacuation instances:

Campus and Housing Evacuation

In the event an evacuation is necessary, students, employees, visitors, and student housing residents will be notified through the College's emergency notification systems and provided instructions appropriate to the situation. Depending on the nature of the emergency, occupants may be directed to evacuate a building, relocate to another area of campus, leave campus, shelter in place, lock down, or take other protective actions.

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

Students and employees are expected to follow instructions provided by emergency responders and College officials. Building occupants should not re-enter evacuated areas until authorized to do so.

Additional procedures applicable to student housing residents are outlined in the Student Housing Emergency Response Plan.

Notification of Emergencies

Southwest Wisconsin Technical College utilizes Timely Warnings, Emergency Notifications, and Safety Alerts to notify students, employees, visitors, and, when appropriate, the public of crime-related threats, emergencies, and other situations that may affect campus safety. Upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of the campus community, the College will issue an Emergency Notification without delay unless, in the professional judgment of the EOC Manager and Public Information Officer, issuing the notification would compromise efforts to assist a victim or contain, respond to, or otherwise mitigate the emergency.

Timely Warning

In compliance with the Jeanne Clery Campus Safety Act, for any incident on campus, in or on non-campus buildings or property, and on public property adjacent to property owned or controlled by the college that is ongoing or a continuing serious threat to the students, employees, or visitors, a timely warning will be issued. This warning will be at the discretion of the EOC Manager or their designee, and will be distributed to students, staff, or visitors as soon as possible after the incident is reported. The warning will provide information that will aid in the prevention of similar occurrences, while withholding the names of victims as confidential. Such reports will be limited to not compromise an ongoing investigation or unlawfully disclose protected information.

Timely Warnings are typically issued for the following Uniform Crime Reporting Program (UCR)/National Incident Based Reporting System (NIBRS) crime classifications:

- Murder/Non-Negligent Manslaughter
- Aggravated Assault (cases involving assaults among known parties, such as two roommates fighting which results in an aggravated injury, will be evaluated on a case-by-case basis to determine if the individual is believed to be an ongoing threat to the larger Southwest Tech community)
- Robbery involving force or violence (cases including pick pocketing and purse snatching will typically not result in the issuance of a Timely Warning Notice, but will be assessed on a case-by-case basis)
- Sexual Assault (considered on a case-by-case basis depending on the facts of the case, when and where the incident occurred, when it was reported, and the amount of information known by the Title IX Coordinator and Deputy Coordinators, or designee). In cases involving sexual assault, they are often reported long after the incident occurred,

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

thus there is no ability to distribute a “timely” warning notice to the community. All cases of sexual assault, including stranger and non- stranger/acquaintance cases, will be assessed for potential issuance of a Timely Warning Notice.

- Major incidents of Arson
- Other Clery crimes as determined necessary by the Executive Director of Facilities, Safety and Security or their designee in his or her absence.

Timely Warning Notices may also be posted for other crime classifications and locations, even though that is not required by the law, at the sole discretion of the EOC Manager or their designee. Timely Warning Notices are typically written and distributed by the Public Information Officer or Back-up Public Information Officer using the methods identified under Notification of Emergencies.

Please note that the College is not required to issue a Timely Warning with respect to crimes reported to a pastoral or professional counselor.

Emergency Notifications

Emergency Notifications are distributed when there is an immediate on-campus threat to the health or safety of students, employees, visitors, or the public for situations that are currently occurring on or imminently threatening the campus. The Emergency Notification may be sent to all stakeholders, or it may be segmented to only a part of the campus community, if appropriate.

The types of incidents that may cause an immediate threat to the community (and therefore require an emergency notification) could include, but are not limited to:

- An active shooter on campus
- Hostage/barricade situation
- A riot
- Suspicious package with confirmation of a device
- A tornado/earthquake
- A fire/explosion
- Suspicious death
- Structural damage to a college-owned or controlled facility
- Outbreak of meningitis, norovirus, or other serious illness
- Biological threat (anthrax, etc.)
- Significant flooding
- A gas leak
- Hazardous materials spill, etc.

Emergency Notifications may also be posted for other crime classifications and locations, even though that is not required by the law, at the sole discretion of the EOC Manager or their designee. They can also be posted for severe storms, chemical spills, disease outbreaks, etc. Emergency Notifications are typically written and distributed by the Public Information Officer

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

or Back-up Public Information Officer using the methods identified under Notification of Emergencies.

Safety Alerts

Southwest Tech may issue Safety Alerts regarding weather-related conditions, environmental hazards, crime prevention information, or other situations that do not meet the criteria for a Timely Warning or Emergency Notification but may be of interest to the campus community. Safety Alerts may be distributed to all or a portion of the campus community using the College's emergency communication systems.

Reporting Criminal Actions, Hazing Incidents, or Other Emergencies

All members of the Southwest Tech community and all visitors are encouraged to accurately and promptly report potential criminal activity, suspicious behavior, hazing incidents, and any emergencies on campus to Facilities, Safety, & Security at 608-822-2401 or by reporting it electronically through the [Report a Concern to Southwest Tech](#) webpage.

Students, employees, and visitors are encouraged to report crimes and emergencies even when the victim elects not to report the incident or is unable to make a report. Reports received by the College are reviewed to determine whether a Timely Warning or Emergency Notification is necessary and for inclusion in the College's annual statistical disclosures, when applicable.

Southwest Tech does not have any non-campus locations of student organizations officially recognized by the College and does not require local police agencies to report criminal activities for this purpose. For non-campus facilities owned or controlled by the College, local police agencies do report criminal activities.

Southwest Tech does not have any officially recognized student organizations that own or control non-campus property. Therefore, the College has no non-campus student organization locations for which criminal activity monitoring by local law enforcement agencies is required. For non-campus properties owned or controlled by the College, criminal activity information is obtained from the appropriate local law enforcement agencies, as applicable.

Response to a Report

In response to a report, the Facilities, Safety & Security Office will take appropriate action, including dispatching a responder, initiating an investigation, or referring the matter to the appropriate College official. All reported crimes are reviewed for appropriate follow-up action and may become a matter of public record as permitted by law.

When assistance from local emergency services or law enforcement is required, the Facilities, Safety & Security Office will contact the appropriate agency. The College maintains working relationships with local law enforcement and emergency response agencies to assist with

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

criminal investigations and emergency response efforts.

Voluntary Confidential Reporting

If you are the victim of a crime and do not wish to pursue action through the College's processes or the criminal justice system, you may still consider making a confidential report. The Executive Director of Facilities, Safety & Security may accept a report without identifying the victim. However, reports involving sexual misconduct, sexual harassment, or sexual discrimination may be shared with the Title IX Coordinator to ensure the College can respond appropriately and comply with applicable legal obligations.

The purpose of confidential reporting is to respect an individual's desire for privacy while helping the College maintain awareness of potential threats to the campus community. Information received through confidential reports may be used to identify crime trends, determine whether there is a continuing threat to the campus community, and support crime prevention efforts. Reports submitted in this manner are included in annual crime statistics when appropriate and when sufficient information is available.

Professional Counselors

Campus Professional Counselors, when acting within the scope of their professional responsibilities, are not considered Campus Security Authorities (CSAs) for purposes of the Jeanne Clery Campus Safety Act and are not required to report crimes for inclusion in the College's annual crime statistics. As a matter of policy, Professional Counselors are encouraged, when they deem appropriate, to inform individuals they are counseling about options for reporting crimes on a voluntary, confidential basis for inclusion in the College's crime statistics.

Professional Counselor means an employee of an institution whose official responsibilities include providing psychological counseling to members of the institution's community and who is functioning within the scope of their license or certification.

Southwest Wisconsin Technical College employs one Mental Health Counselor whose duties align with those of a Professional Counselor. Southwest Tech does not employ any Pastoral Counselors.

Consistent with professional standards and applicable law, individuals seeking counseling services may discuss incidents of sexual violence, sexual harassment, sexual discrimination, dating violence, domestic violence, or stalking with the Mental Health Counselor confidentially. The Counselor may provide information regarding reporting options, supportive measures, and available resources. Individuals who wish to make a report to the College may do so through the Title IX Coordinator or other designated College officials.

Drug and Alcohol Policy

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

Southwest Tech prohibits the unlawful possession, use, and sale of alcoholic beverages and illegal drugs on campus and is committed to maintaining an alcohol and drug-free learning and work environment for students, faculty, staff, and visitors. An alcohol and drug-free campus provides for a safe and healthy campus and workplace for all. This policy applies to students, employees, and the public on Southwest Tech's owned and leased property, including housing, owned, leased, or controlled by the College, Foundation or Real Estate Foundation, and, at College-sponsored activities and events. This policy also applies to college-sponsored off-campus activities and locations wherever held. The provisions of this policy are intended to comply with applicable state and federal laws including but not limited to: the Drug Free Schools and Communities Act Amendment of 1989; the Drug-Free Workplace Act of 1988; the Americans with Disabilities Act of 1990; the 1989 Wisconsin Act 121; and the Uniform Controlled Substances Act, Wisconsin Legislature Chapter 961.

Employees, students, and visitors, regardless of age, are expected to refrain from the use of alcohol and use of drugs, other controlled substances, and/or related paraphernalia, including hookahs, on Southwest Tech-owned or leased premises including Foundation and Real Estate Foundation-owned or leased premises or at College-sponsored/supported events, while driving a College vehicle or while otherwise engaged in College business. The only exception is if alcohol is served as part of an event listed under the Allowable Use of Alcohol and Other Drugs section of the college's Alcohol & Other Drugs policy. Employees must follow the requirements related to alcohol, drugs, and controlled substances in the Employee Handbook. Students must also follow the requirements related to alcohol, drugs, and controlled substances in the Student Code of Conduct and Student Handbook. In addition, housing students must follow the requirements related to alcohol, drugs, and controlled substances in the Student Housing Lease and the Student Housing Handbook.

The College has established a [Drug & Alcohol Awareness Prevention Program](#) for all employees and students, which is available on the Southwest Tech website. This program includes distribution of its policies, sanctions for violations, health risks associated with alcohol and other drug use, and resources available to students and employees.

Violations of federal, state, or local alcohol and other drug laws may result in criminal prosecution by the appropriate law enforcement agency in addition to College disciplinary action.

All students are encouraged to seek help early if they feel they have a problem with drugs and/or alcohol and to learn how to assist others with substance abuse problems. Students have access to the Southwest Tech's Mental Health Counselor for assessment and/or intervention referral for alcohol and other drugs.

Employees who violate the Alcohol & Other Drug Policy are subject to the progressive discipline process administered by the Human Resources Office. Employees with alcohol or drug abuse problems are strongly encouraged to seek help. Alcohol and drug abuse rehabilitation and assistance programs are available through the College's health benefits program and through the College Employee Assistance Program. Employees may contact the Human Resources Office to seek assistance and/or referral to an appropriate outside agency.

Missing Student Notification

In accordance with the Higher Education Opportunity Act, Southwest Tech developed and implemented procedures to be followed when residential students are determined to be missing for 24 hours. Students residing in campus housing will be informed annually that each student has the option to identify a person(s) designated as a confidential missing person contact to be notified by Southwest Tech no later than 24 hours after the time the student is determined to be missing by the designated College official authorized to make that determination (specifically, the Resident Life Manager) or the local law enforcement agency in which the student went missing. When students are informed of their option to provide a confidential contact, they are advised that their contact information will be registered confidentially, and this information will be accessible only to authorized campus officials and law enforcement and it may not be disclosed outside of a missing person investigation.

The Resident Life Manager or designee will notify any missing student's confidential contact(s), if provided, within 24 hours of the determination that the student is missing. In the event a student under 18 years of age and not emancipated, Southwest Tech must notify a custodial parent or guardian within 24 hours of the determination that the student is missing, in addition to notifying any confidential contact person designated by the student. For all missing students, the Resident Life Manager or Designee will notify the local law enforcement agency within 24 hours of the determination that the student is missing, unless the local law enforcement agency was the entity that made the determination the student is missing.

Suspected missing students who live in student housing should be reported immediately to the Resident Life Manager or designee. If members of the Southwest Tech community believe that a student has been missing for 24 hours or are missing based on other evidence, it is critical that they report that information to Resident Life Manager by calling 608-822-2366. Should the Resident Life Manager or designee investigate and determine that a residential student is missing, contact will then be made to the missing person's contact, if contact information has been provided, within twenty-four (24) hours of the determination that the student is missing by the Resident Life Manager. If the student is under the age of 18 and is not an emancipated individual, the Resident Life Manager will notify the student's parents or guardian and any other designated contact person within 24 hours. Regardless of whether the student has identified a contact person, is above the age of 18, or is an emancipated minor, The Resident Life Manager will inform the Fennimore Police Department (or the local law enforcement with jurisdiction) that the student is missing within 24 hours.

- **Stalking:** The state of Wisconsin defines stalking (per Statute 940.32) as follows: an intentional and particular course of conduct engaged in by one person against another. This course of conduct means a series of 2 or more of the following acts carried out over time, however short or long, that show a continuity of purpose, including any of the following:
 - Maintaining a visual or physical proximity to the victim.
 - Approaching or confronting the victim.
 - Appearing at the victim's workplace or contacting coworkers or employers of the victim.
 - Appearing at the victim's home or contacting the victim's neighbors.
 - Entering property owned, leased, or occupied by the victim.
 - Contacting the victim by telephone, text message, electronic message, electronic mail, or other means of electronic communication or causing the victim's telephone or electronic device or any other person's telephone or electronic device to ring or generate notifications repeatedly or continuously, regardless of whether a conversation ensues.
 - Photographing, videotaping, audiotaping or, by other electronic means, monitoring or recording the activities of the victim. This subdivision applied regardless of where the act occurs.
 - Sending to the victim any physical or electronic material or contacting the victim by any means, including any message, comment, or other content posted on any Internet site or web application.
 - Sending to a member of the victim's family or household, or any current or former employer of the victim, or any current or former coworker of the victim, or any friend of the victim any physical or electronic material or contacting such person by any means, including any message, comment, or other content posted on any Internet site or web application for the purpose of obtaining information about, disseminating information about, or communicating with the

- victim.
 - Placing an object on or delivering an object to property owned, leased or occupied by the victim.
 - Delivering an object to a member of the victim's family or household or an employer, coworker, or friend of the victim or placing an object on, or delivering an object to, property owned, leased, or occupied by such a person with the intent that the object be delivered to the victim.
- **Consent:** The state of Wisconsin defines consent, in relation to sexual activity, as follows: Words or overt actions by a person who is competent to give informed consent indicating a freely given agreement to have sexual intercourse or sexual contact.

Southwest Tech defines **Consent** as follows:

the equal approval, given freely, willingly and knowingly of each participant to desired sexual involvement. Consent is an affirmative, conscious decision — indicated clearly by words or actions — to engage in mutually accepted sexual contact. A person compelled to engage in sexual contact by force, threat of force, or coercion has not consented to contact.

Southwest Tech uses the college's definition of consent in investigating alleged sexual misconduct and in determining sanctions against students and employees.

How to Be an Active Bystander

Bystanders play a critical role in the prevention of sexual and relationship violence. They are "individuals who observe violence or witness the conditions that perpetuate violence. They are not directly involved but have the choice to intervene, speak up, or do something about it."¹ We want to promote a culture of community accountability where bystanders are actively engaged in the prevention of violence without causing further harm. We may not always know what to do even if we want to help. Based on Hollaback!'s 5Ds², the following will aid you in being an active bystander. If you or someone else is in immediate danger, **dial 911**. This could be when a person is yelling at or being physically abusive towards another and it is not safe for you to interrupt.

¹ Burn, S.M. (2009). A situational model of sexual assault prevention through bystander intervention. *Sex Roles*, 60, 779-792.

² Bystander intervention resources from the American Psychological Association.

Hollaback!'s 5D's

Distract

Distraction is a subtle and creative way to intervene. Derail the situation by interrupting it.

- Ignore the harasser and engage directly with the person who is being targeted. Don't talk about or refer to the harassment.
- Instead, talk about something completely unrelated. Read the situation and choose your distraction method accordingly.

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

The person who is being targeted will likely catch on, and hopefully your act or statement will de-escalate the situation.

Delegate

Delegation is when you ask for assistance, a resource, or for help from a third party.

- Find another person and ask them to intervene or intervene together.
- Work together with a friend to distract the person being targeted while you find someone with more authority to delegate to.
- Call 911. Before contacting 911, use Distract to check in with the person being targeted to make sure they want you to do this. Some people may not be comfortable or feel safe with the intervention of law enforcement.

Document

It can be really helpful to record an incident as it happens to someone; however, there are a number of things to keep in mind to safely and responsibly document harassment.

- Assess the situation. Is anyone helping the targeted person? If not, use one of the other four D's to engage someone else to help out.
- ALWAYS ask the targeted person what they want to do with the recording. NEVER post it online or use it without their permission.

Delay

Even if you can't act in the moment, you can make a difference for the targeted person by checking in on them after the fact.

- Ask them if they're okay and tell them you're sorry that happened to them.
- Ask them if there's any way you can support them.
- Offer to accompany them to their destination or sit with them for awhile.
- Share resources with them and offer to help them make a report if they want to.
- If you've documented the incident, ask them if they want you to send it to them.

Direct

You may want to directly respond to a situation by naming what is happening or confronting the harasser. This tactic may be risky; the harasser may redirect their abuse towards you and may escalate the situation. Before you decide to respond directly, assess the situation to make sure you and the other victim are physically safe and the victim wants you to speak up. If you choose to directly intervene, some things you can say are:

- That's inappropriate, disrespectful, not okay, etc.
- Leave them alone.
- We don't do that here.

Keep it short and succinct. Try not to engage in dialogue, debate, or an argument to avoid escalation of the situation. Try your best to assist the person who was targeted instead of engaging the harasser. Direct intervention can be risky, so use this tactic with caution.

Southwest Wisconsin Technical College

Risk Reduction

With no intent to victim blame and recognizing that only abusers are responsible for their abuse, the following are some strategies to reduce one's risk of sexual assault or harassment (taken from Rape, Abuse, & Incest National Network, www.rainn.org)

- a. **Be aware** of your surroundings. Knowing where you are and who is around you may help you to find a way to get out of a bad situation.
- b. Try to **avoid isolated areas**. It is more difficult to get help if no one is around.
- c. **Walk with purpose**. Even if you don't know where you are going, act like you do.
- d. **Trust your instincts**. If a situation or location feels unsafe or uncomfortable, it probably isn't the best place to be.
- e. **Try not to load yourself down** with packages or bags as this can make you appear more vulnerable.
- f. **Make sure your cell phone is with you** and charged and that you have cab money.
- g. **Don't allow yourself to be isolated** with someone you don't trust or someone you don't know.
- h. **Avoid putting music headphones in both ears** so that you can be more aware of your surroundings, especially if you are walking alone.
- i. **When you go to a social gathering, go with a group of friends**. Arrive together, check in with each other throughout the evening, and leave together. Knowing where you are and who is around you may help you to find a way out of a bad situation.
- j. **Trust your instincts**. If you feel unsafe in any situation, go with your gut. If you see something suspicious, contact law enforcement immediately (local authorities can be reached by calling 911 in most areas of the U.S.).
- k. **Don't leave your drink unattended** while talking, dancing, using the restroom, or making a phone call. If you've left your drink alone, just get a new one.
- l. **Don't accept drinks from people you don't know or trust**. If you choose to accept a drink, go with the person to the bar to order it, watch it being poured, and carry it yourself. At parties, don't drink from the punch bowls or other large, common open containers.
- m. **Watch out for your friends, and vice versa**. If a friend seems out of it, is way too intoxicated for the amount of alcohol they've had, or is acting out of character, get him or her to a safe place immediately.
- n. **If you suspect you or a friend has been drugged, contact law enforcement immediately (local authorities can be reached by calling 911 in most areas of the U.S.). Be explicit with doctors so they can give you the correct tests (you will need a urine test and possibly others).**
- o. If you need to get out of an uncomfortable or scary situation here are some things that you can try:
 - i. **Remember that being in this situation is not your fault**. You did not do anything wrong, it is the person who is making you uncomfortable that is to blame.
 - ii. **Be true to yourself**. Don't feel obligated to do anything you don't want to do. "I don't want to" is always a good enough reason. Do what feels right to you and what you are comfortable with.

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

- iii. **Have a code word with your friends or family** so that if you don't feel comfortable you can call them and communicate your discomfort without the person you are with knowing. Your friends or family can then come to get you or make up an excuse for you to leave.
- iv. **Lie.** If you don't want to hurt the person's feelings it is better to lie and make up a reason to leave than to stay and be uncomfortable, scared, or worse. Some excuses you could use are: needing to take care of a friend or family member, not feeling well, having somewhere else that you need to be, etc.
- p. **Try to think of an escape route.** How would you try to get out of the room? Where are the doors? Windows? Are there people around who might be able to help you? Is there an emergency phone nearby?
- q. **If you and/or the other person have been drinking,** you can say that you would rather wait until you both have your full judgment before doing anything you may regret later.

2026 Annual Security & Fire Safety Report

Southwest Tech's procedures for victims, availability of counseling, and external resources, disciplinary actions include:

- i. procedures victims should follow if a crime of domestic violence, dating violence, sexual assault and stalking occurs (as described in "Procedures Victims Should Follow if a Crime of Domestic Violence, Dating Violence, Sexual Assault and Stalking Occurs" elsewhere in this document)
- ii. how the institution will protect the confidentiality of victims and other necessary parties (as described in "Assistance for Victims: Rights and Options" elsewhere in this document);
- iii. existing counseling, health, mental health, victim advocacy, legal assistance, visa and immigration assistance, student financial aid, and other services available for victims, both within the institution and in the community (as described in "Assistance for Victims: Rights and Options" elsewhere in this document);
- iv. options for, available assistance in, and how to request changes to academic, living, transportation, and working situations or protective measures (as described in "Assistance for Victims: Rights and Options" elsewhere in this document).

Procedures Victims Should Follow if a Crime of Domestic Violence, Dating Violence, Sexual Assault and Stalking Occurs

After an incident of sexual assault, dating violence or domestic violence, the victim should consider seeking medical attention as soon as possible at (Grant Regional Medical Center, Lancaster, Wisconsin, or hospital of choice). In Wisconsin, evidence may be collected even if you chose not to make a report to law enforcement. It is important that a victim of sexual assault not bathe, douche, smoke, change clothing or clean the bed/linen/area where they were assaulted if the offense occurred within the past 96 hours so that evidence may be preserved that may assist in proving that the alleged criminal offense occurred/or is occurring or may be helpful in obtaining a protection order. In circumstances of sexual assault, if victims do not opt for forensic evidence collection, health care providers can still treat injuries and take steps to address concerns of pregnancy and/or sexually transmitted infections. Victims of sexual assault, domestic violence, stalking, and dating violence are encouraged to also preserve evidence by saving text messages, instant messages, social networking pages, other communications, and keeping pictures, logs or other copies of documents, if they have any, that would be useful to College adjudicators/investigators or police.

As time passes, evidence may dissipate or become lost or unavailable, thereby making investigation, possible prosecution, disciplinary proceedings, or obtaining protection from abuse orders related to the incident more difficult. If a victim chooses not to make a complaint regarding an incident, he or she nevertheless should consider speaking with the Executive Director of Facilities, Safety & Security or law enforcement to preserve evidence in the event the victim decides to report the incident to law enforcement or the College at a later date to assist in proving the alleged criminal offense occurred or that may be helpful in obtaining a protection order.

Involvement of Law Enforcement and Campus Authorities

This plan may include, but is not limited to, safety escorts, special parking arrangements, providing a temporary cellphone, changing classroom location or allowing a student to complete assignments from home, etc. The College cannot apply for a legal order of protection, no contact order or restraining order for a victim from the applicable jurisdiction(s).

Confidentiality

Victims may request that directory information on file with the College be withheld by Student Services. Regardless of whether a victim has opted-out of allowing the College to share “directory information,” personally identifiable information about the victim and other necessary parties will be treated as confidential and only shared with persons who have a specific need-to-know, i.e., those who are investigating/adjudicating the report or those involved in providing support services to the victim, including accommodations and protective measures. The College does not publish the name of crime victims or other identifiable information regarding victims in the daily crime log and annual crime statistics that are disclosed in compliance with the *Jeanne Clery Campus Safety Act*. Furthermore, if a Timely Warning Notice is issued on the basis of a report of domestic violence, dating violence, sexual assault or stalking, the name of the victim and other personally identifiable information about the victim will be withheld.

Types of Disciplinary Proceedings Utilized in Cases of Alleged Domestic Violence, Dating Violence, Sexual Assault and Stalking

Student Conduct

1. The process must treat complainants equitably by imposing remedies any time a respondent is found responsible:
 - a. Remedies must be designed to maintain the complainant’s equal access to education and may include the same individualized services that were initially offered as supportive measures.
 - b. Remedies, in the event the respondent is found responsible, need not be non-disciplinary or non-punitive and need not avoid burdening the respondent.
2. The process must treat respondents equitably by not imposing disciplinary sanctions without following due process protections offered through the formal grievance process.
3. The Title IX Formal Resolution Hearing is a closed hearing; it is not open to the public. The individuals who may appear before the Title IX Formal Resolution Hearing Board are:
 - a. The complainant or *Title IX Coordinator
 - i. Where the Title IX Coordinator signs a formal complaint (in events where the alleged victim cannot or will not present his or her own complaint) , the Title IX Coordinator is not a complainant or party during

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

the grievance process and must comply with all Title IX personnel to be free from conflicts and bias.

- b. The respondent
 - c. Any individual serving as an approved Advisor
 - d. Title IX Coordinator
 - e. Title IX Investigators
 - f. Any individuals appearing as witnesses.
4. The Title IX Formal Resolution Hearing is a live hearing. Live hearings may be conducted with all parties physically present at the same geographic location, or at the College's discretion or request by either party, any or all parties, witnesses or other participants may appear at the live hearing through virtual means. This technology must allow the parties to clearly see and hear each other.

Student Code of Conduct

Southwest Wisconsin Technical College (College) promotes a learning-centered environment dedicated to the advancement of personal growth and knowledge. The College believes every student has the right to pursue an education in a community that values respect, integrity, and inclusivity. To this end, the College prohibits conduct on its campus and in its student housing, which impedes learning, disrupts a peaceful campus environment, and does not promote a cohesive culture based on professionalism, fairness, and trust.

The Student Code of Conduct (Code) sets forth the rights and responsibilities of students at the College, outlines the process for addressing unacceptable behavior, and identifies a range of disciplinary consequences. The Code is designed to provide students with due process and procedural fairness, to ensure equal protection for all students, and to ensure consistency in the process and the consequences. At the same time, the Code reflects the need to consider the individual circumstances of each student, including prior disciplinary history. Further, when possible, the Code is intended to provide students an opportunity to align their conduct with the expectations of the College.

In general, matters involving behavioral misconduct will be addressed first by the Chief Student Services Officer and the Executive Director of Safety, Security and Facilities, and matters involving academic misconduct will be addressed by the Chief Academic Officer. No matter the process implemented for each matter, final authority over all matters of student misconduct remains under the authority of the President of the College.

The Code applies to conduct that occurs in-person, in writing, via cellphone, and online via email or other electronic mediums including blogs, web postings, chats, and social networking sites.

Finally, the Code applies to all students enrolled in credit and non-credit courses.

- Notice of the applicable range of consequences;

Behavioral Misconduct Procedure & Sanctions

Any member of the College community may report a violation of the Code of Conduct. Individuals who report a violation are referred to as “complainants” and individuals alleged to have violated the code are referred to as “respondents.” Reports should be made using the reporting form on the college website or reported directly to the Chief Student Services Officer. Reports should be sent as soon as possible following the alleged conduct to ensure timely investigation. All reports of behavioral misconduct made to other College employees will be referred to the Chief Student Services Officer or designee.

Complaints of behavioral misconduct will be addressed through the procedures set forth below. Complaints of sexual harassment under Title IX of the Education Amendments of 1972 will be addressed under the College’s the [Title IX: Prohibition of Sexual Harassment policy](#).

Generally, the process for addressing reports of behavioral misconduct will be completed within thirty (30) business days although the College reserves the right to extend the timeline when necessary to complete an investigation.

Note: When the severity of the circumstances warrants, the Chief Student Services Officer; Executive Director of Facilities, Safety, & Security; Vice President of Administrative Services; Chief Human Resources Officer; and/or President may impose upon the respondent a temporary suspension or separation from the College, including classes and College housing.

Step 1: Notification of Incident

- Upon receipt of a report, the Chief Student Services Officer or designee will determine if the report alleges a violation of the Code. If so, the Chief Student Services Officer will designate assigned College officials to take the following steps:
 - Contact law enforcement, if appropriate.
 - Meet with the complainant to understand the nature of the report and offer supportive services.
 - Gather other relevant information, if necessary.
 - Report to the Chief Student Services Officer who will determine whether to initiate an informal or formal resolution process.

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

- Provide written notice to the respondent and complainant of the allegations in the report and inform them whether the College will initiate a formal or informal resolution process.

Informal Resolution

- When both a complainant and respondent agree to informal resolution and an informal resolution process is warranted, the Chief Student Services Officer will conduct the informal resolution process.
- During the process, the respondent will be given the opportunity to respond and provide information relevant to the allegations in the report.
- If needed, the Chief Student Services Officer will seek additional relevant information from the complainant or other witnesses.
- Following completion of the informal resolution process, the Chief Student Services Officer will notify the complainant and respondent (if appropriate) of the outcome.
- Matters resolved through informal resolution often involve sanctions such as:
 - Service requirements
 - Restitution
 - Loss of privileges
 - Education Requirements

Step 2: Notification & Investigation

If a formal resolution process is warranted, the Executive Director of Safety, Security and Facilities, and/or Director of Public Safety and Advising will take the following steps:

- Conduct a thorough investigation which includes the following:
 - Interview complainant, respondent, relevant witnesses, and College officials, if appropriate.
 - Review relevant documents including student records, disciplinary records, police reports, and audio and video recordings.
 - Review College policies and procedures.
- After gathering all relevant information, meet with the respondent, share the information obtained, and provide respondent an opportunity to respond to the information.
- If needed, conduct additional interviews or gather additional information.

Step 3: Findings & Sanctions

- Upon completion of the investigation, the Chief Student Services Officer will review the evidence and make findings based on a preponderance of evidence standard (whether a violation is more likely than not).
- Based on the findings, the Chief Student Services Officer will determine appropriate sanctions, in conjunction with other college officials when appropriate.

The respondent will be notified in writing, delivered by email, mail, or in person, of the findings and disciplinary sanctions (Decision).
- The Chief Student Services Officer is given broad authority to determine sanctions,

based on the best interest of the respondent, complainant, other individuals, and the College. Discipline may include one or more sanctions listed below. All Decisions regarding behavioral misconduct will be maintained by the College in accordance with state and federal law.

During the suspension period, the student is banned from property owned, leased, or controlled by the College, Foundation or Real Estate Foundation, including student housing and is banned from school-sponsored events and activities. The sanction may be enforced with a trespass action as necessary. Students suspended for disciplinary reasons are not entitled to any refund of tuition or housing fees.
12. *Housing Suspension* - Separation from the student housing area for a specific period of time, after which the student may be eligible to return. 13. *Expulsion* - A permanent separation from the College. The student is banned from property owned, leased, or controlled by the College, Foundation or Real Estate Foundation, including student housing, and at College-sponsored events. This sanction may be enforced with a trespass action as necessary. Students that are expelled for disciplinary reasons are not entitled to any refund of tuition or housing fees.
14. *Housing Expulsion* - Permanent removal of the student from student housing. The sanction will most likely result in a permanent ban from all student housing properties. Students dismissed from student housing for disciplinary reasons are not entitled to any refund of housing fees.
15. *Academic Removal* - Removal of student from an academic course ("W" grade shown on transcript).
16. *Confiscation of Prohibited Property* – Confiscation of illegal or prohibited items for specified period of time. Any controlled substances, including alcohol, will be discarded or turned over to law enforcement.

Step 4: Seeking an Appeal

- Within five (5) business days of the date of the Decision, the respondent may request an appeal, in writing, on the following basis:
- To consider new evidence, unavailable or not considered during the original investigation which may substantially impact the original finding or sanction. A summary of this new evidence and its potential impact must be included with the appeal request.
- A procedural or substantive error occurred that significantly impacted the outcome of the Decision. The specific error(s) alleged to have occurred must be identified in the appeal request.
- The sanctions imposed are substantially outside the guidelines set by the College for this type of offense or the cumulative conduct record of the responding student.
- Written appeals based on new evidence should be submitted to the Chief Student Services Officer.
- Written appeals based on procedural error or disproportionate sanctions should be submitted to the Chief Academic Officer
- If an appeal is not timely or warranted under these procedures, the Decision will be final.

Appeal Based on New Evidence

Upon receipt of an appeal based on new evidence, the Chief Student Services Officer, or designee, shall:

- Notify the complainant or respondent when appropriate under the law.
- Review the appeal to determine if the appeal is warranted.
- Notify the appellant, in writing, whether the appeal is granted or denied and the basis for that decision.
- If an appeal is warranted, review all new evidence submitted to determine if it substantially impacts the findings or sanctions in the original Decision.
- If not, notify the appellant, in writing, that for this reason, the Decision is affirmed.

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

- If the new evidence substantially impacts a finding or sanction, conduct further investigation if necessary.
- Notify the appellant, in writing, whether the Decision is affirmed, reversed, or modified.

Upon receipt of an appeal based on procedural error or disproportionate sanctions, the Chief Academic Officer, or designee, shall:

- Notify the complainant or respondent when appropriate under the law.
- Review the appeal to determine if the appeal is warranted.
- Notify the appellant, in writing, whether the appeal is granted or denied and the basis for that decision.
- If an appeal is warranted, convene an Appeals Panel.

Step 5: Appeal

If an appeal is warranted, the appeal process shall commence within fifteen (15) business days after the written appeal request is received by the Chief Student Services Officer or Chief Academic Officer.

See Appeals Panel Guiding principles for further details.

Step 6: Notification of Appeal Outcomes

- The decision of the Chief Student Services Officer (for appeals on the basis of new evidence) or Appeals Panel (for appeals on the basis of a procedural error or disproportionate sanctions) is final.
- Within two (2) business days following a decision by the Chief Student Services Officer or Appeals Panel, the Chief Student Services Officer shall notify the appellant, in writing, of the decision and implement any issued sanctions.

Note: Decisions with respect to disciplinary matters will be treated as confidential student records subject to the Family Educational Rights and Privacy Act.

2026 Annual Security & Fire Safety Report

- **Aggravated Assault:** An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. It is not necessary that injury result from an aggravated assault when a gun, knife or other weapon is used which could or probably would result in a serious potential injury if the crime were successfully completed.
- **Burglary:** The unlawful entry of a structure to commit a felony or a theft. For reporting purposes this definition includes: unlawful entry with intent to commit a larceny or a felony; breaking and entering with intent to commit a larceny; housebreaking; safecracking; and all attempts to commit any of the aforementioned.
- **Motor Vehicle Theft:** The theft or attempted theft of a motor vehicle. (Classify as motor vehicle theft all cases where automobiles are taken by persons not having lawful access, even though the vehicles are later abandoned - including joy riding.)
- **Arson:** The willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, or personal property of another kind.

Hate Crimes

Hate crimes are reported according to the category of prejudice. A crime is a hate crime when it manifests evidence that the victim was intentionally selected because of the perpetrator's bias against the victim. Categories of bias include:

- **National Origin Bias:** A preformed negative opinion or attitude toward a group of people based on their actual or perceived country of birth. This bias may be against people that have a name or accent associated with a national origin group, or because they are married to or associate with people of a certain national origin.
 - **Race Bias:** A preformed negative opinion or attitude toward a group of persons who possess common physical characteristics (e.g., color of skin, eyes, and/or hair; facial features, etc.) genetically transmitted by descent and heredity which distinguish them as a distinct division of humankind (e.g., Asians, Blacks or African Americans, Whites)
 - **Religious Bias:** A preformed negative opinion or attitude toward a group of persons who share the same religious beliefs regarding the origin and purpose of the universe and the existence or nonexistence of a supreme being (e.g., Catholics, Jews, Protestants, atheists)
 - **Ethnicity Bias:** A preformed negative opinion or attitude toward a group of people whose members identify with each other, through a common heritage, often consisting of a common language, common culture (often including a shared religion) and/or ideology that stresses common ancestry
- **Gender Identity Bias:** A preformed negative opinion or attitude toward a person or group of persons based on their actual or perceived gender identity, e.g., bias

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

against transgender or gender non-conforming individuals

- **Disability Bias:** A preformed negative opinion or attitude toward a group of persons based on their physical or mental impairments, whether such disability is temporary or permanent, congenital or acquired by heredity, accident, injury, advanced age or illness
- **Sexual Orientation Bias:** A preformed negative opinion or attitude toward a person or a group of persons based on their actual or perceived sexual orientation. Sexual Orientation is the term for a person's physical, romantic, and/or emotional attraction to members of the same and/or opposite sex, including lesbian, gay, bisexual, and heterosexual (straight) individuals
- **Gender Bias:** A preformed negative opinion or attitude toward a group of persons based on their actual or perceived gender, e.g., male or female

The following primary crimes may have been motivated by the offender's bias:

- Murder/Non-Negligent Manslaughter
- Rape
- Fondling
- Incest
- Statutory Rape
- Robbery
- Aggravated Assault
- Burglary
- Motor Vehicle Theft
- Arson
- **Larceny-Theft:** The unlawful taking, carrying, leading or riding away of property from the possession or constructive possession of another.
- **Simple Assault:** An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration or loss of consciousness.
- **Intimidation:** To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct, but without displaying a weapon or subjecting the victim to actual physical attack.
- **Destruction, Damage or Vandalism:** To willfully or maliciously destroy, injure, disfigure, or deface any public or private property, real or personal, without the consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law.

If a hate crime occurs where there is an incident involving larceny-theft, simple assault, intimidation, destruction, damage or vandalism of property, and other bodily injury, the law requires that the statistic be reported as a hate crime even though there is no requirement to report the crime classification in any other area of the compliance document. A bias-related (hate) crime is not a separate, distinct crime, but is the

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

commission of a criminal offense which was motivated by the offender's bias. For example, a subject assaults a victim, which is a crime. If the facts of the case indicate that the offender was motivated to commit the offense because of their bias against the victim's race, sexual orientation, etc., the assault is then also classified as a hate crime.

Arrests and Referrals for Disciplinary Action

- **Weapon Law Violations:** The violation of laws or ordinances dealing with weapon offenses, regulatory in nature, such as: manufacture, sale, or possession of deadly weapons; carrying deadly weapons, concealed or openly; furnishing deadly weapons to minors; aliens possessing deadly weapons; all attempts to commit any of the aforementioned.

Key Concepts and Definitions Central to All Forms of Sexual Misconduct

Southwest Tech does not presume a student or employee is in violation of college policy. A conduct hearing or investigation will be held to take into account the totality of information available, from all relevant sources. The college will determine whether the

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

Student Code of Conduct or the Employee Handbook Conduct Guidelines have been violated.

COMPLAINANT:	Complainant refers to the individual who reported the incident of alleged sexual misconduct.
RESPONDENT:	Respondent refers to the student, employee or faculty member who allegedly violated the sexual misconduct policy and/or has been charged with a violation of the policy.
CONSENT:	A central concept to understanding the offenses that constitute sexual misconduct under this policy is consent. Consent is the equal approval, given freely, willingly and knowingly of each participant to desired sexual involvement. Consent is an affirmative, conscious decision — indicated clearly by words or actions — to engage in mutually accepted sexual contact. A person compelled to engage in sexual contact by force, threat of force, or coercion has not consented to contact. Lack of mutual consent is the crucial factor in any sexual assault. Consent CANNOT be given if a person's ability to resist or consent is impaired because of a mental or physical condition or there is incapacitation due to drugs or alcohol or if there is a significant age or perceived power differential. Providing alcohol or drugs to facilitate sexual activity is a violation of this policy. Use of alcohol or other drugs will never function to excuse behavior that violates this policy. A person may not consent if they are: • unconscious • frightened • physically or psychologically pressured or forced • intimidated • impaired because of a psychological condition • intoxicated by use of drugs or alcohol Consent to one form of sexual activity does not imply consent to other forms of sexual activity. Similarly, previous relationships or consent does not imply consent to future sexual activity. The requirements of this policy apply regardless of the sexual orientation of individuals engaging in sexual activity.

Sexual misconduct includes, but is not limited to, conduct prohibited in Wisconsin Statutes 940.225.

1. NON-CONSENSUAL SEXUAL INTERCOURSE

The State of Wisconsin Statutes referenced above provide a comprehensive list of the behaviors that are considered non-consensual sexual intercourse.

2. NON-CONSENSUAL SEXUAL CONTACT

The State of Wisconsin Statutes referenced above provide a comprehensive list of the behaviors that are considered non-consensual sexual contact.

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

3. SEXUAL EXPLOITATION

Sexual exploitation as defined by this policy occurs when an individual takes non-consensual or abusive sexual advantage of another individual for his/her own advantage or benefit, or to benefit or advantage anyone other than the person being exploited.

Examples of sexual exploitation may include, but are not limited to:

- video or audio of a person engaged in sexually explicit conduct without the consent of that individual;
- engaging in “Peeping Tommmery,” or viewing other persons engaged in intimate behavior without their consent or
- knowingly transmitting a sexually transmitted disease.

4. SEXUAL HARASSMENT

Sexual harassment is defined as any unwelcome sexual advances, demands, requests for sexual favors, innuendoes or any other verbal or physical conduct of a sexual nature when:

- a) Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's educational or residential experience or employment; or
- b) Submission to or rejection of such conduct by an individual is used as the basis for educational, residential or employment decisions affecting such individual; or
- c) Such conduct is sufficiently severe and pervasive so as to alter the conditions of, or have the purpose or effect of substantially prostituting another individual;
- d) recording, displaying or distributing in any way photos,
- e) interfering with, an individual's academic performance or work by creating an intimidating, hostile, or offensive educational, residential or working environment.

Hazing

Southwest Wisconsin Technical College explicitly prohibits anyone from engaging in or attempting hazing conduct on property, including housing, owned, leased or controlled by the College, Foundation, or Real Estate Foundation, at any student learning environments, educational field trips, club activities, or at any College-sponsored activity wherever held. Hazing involves intentional, knowing, or reckless conduct associated with joining, participating in, or maintaining membership in a student organization that causes or creates a risk of physical or psychological harm.

The federal definition of Hazing is defined as any intentional, knowing, or reckless act committed by a person (whether individually or in concert with other persons), against another person or persons regardless of the willingness of such other person or persons to participate, that

- Is committed in the course of an initiation into, an affiliation with, or the maintenance of membership in, a student organization (an organization at an institution of higher education in which two or more of the members are students enrolled at the institution of higher education, whether or not the organization is established or recognized by the institution); and
- Causes or creates a risk, above the reasonable risk encountered in the course of participation in the College or a College organization (such as the physical preparation necessary for participation in an athletic team), of physical or psychological injury including:
 - Whipping, beating, striking, electronic shocking, placing of a harmful substance on someone's body, or similar activity;
 - Causing, coercing, or otherwise inducing sleep deprivation, exposure to the elements, confinement in a small space, extreme calisthenics, or other similar activity;
 - Causing, coercing, or otherwise inducing another person to perform sexual acts;
 - Any activity that places another person in reasonable fear of bodily harm through the use of threatening words or conduct;
 - Any activity against another person that includes a criminal violation of local, State, Tribal, or Federal law; and
 - Any activity that induces, causes, or requires another person to perform a duty or task that involves a criminal violation of local, State, Tribal, or Federal law.

Southwest Tech has adopted the federal definition of Hazing for all purposes related to campus safety and security. The College definition is contained in the Student Code of Conduct Policy, Employee Handbook, and in the Annual Security & Fire Safety Report.

According to 20 U.S.C. 1092(f)(6)(A)(VIII) the term student organization for purposes of reporting hazing incidents means "an organization at an institution of higher education (such as a club, society, association, varsity or junior varsity athletic team, club sports team, fraternity, sorority, band, or student government) in which two or more of the members are students enrolled at the institution of higher education, whether or not the organization is established or recognized by the institution."

Southwest Wisconsin Technical College 2026 Annual Security & Fire Safety Report

Procedures Victims Should Follow if Hazing Occurs

After an incident of hazing that could include sexual assault, the victim should consider seeking medical attention as soon as possible at (Grant Regional Medical Center, Lancaster, Wisconsin, or hospital of choice). In Wisconsin, evidence may be collected even if you chose not to make a report to law enforcement. It is important that a victim of sexual assault not bathe, douche, smoke, change clothing or clean the bed/linen/area where they were assaulted if the offense occurred within the past 96 hours so that evidence may be preserved that may assist in proving that the alleged criminal offense occurred/or is occurring or may be helpful in obtaining a protection order. In circumstances of sexual assault, if victims do not opt for forensic evidence collection, health care providers can still treat injuries and take steps to address concerns of pregnancy and/or sexually transmitted infections. Victims of hazing incidents are encouraged to also preserve evidence by saving text messages, instant messages, social networking pages, other communications, and keeping pictures, logs or other copies of documents, if they have any, that would be useful to College adjudicators/investigators or police.

As time passes, evidence may dissipate or become lost or unavailable, thereby making investigation, possible prosecution, disciplinary proceedings, or obtaining protection from abuse orders related to the incident more difficult. If a victim chooses not to make a complaint regarding an incident, they nevertheless should consider speaking with the Executive Director of Facilities, Safety & Security or law enforcement to preserve evidence in the event the victim decides to report the incident to law enforcement or the College at a later date to assist in proving the alleged criminal offense occurred or that may be helpful in obtaining a protection order.

Involvement of Law Enforcement and Campus Authorities

Although the College strongly encourages all members of its community to report violations of this policy to law enforcement, it is the victim's choice whether or not to make such a report. Furthermore, victims have the right to decline to notify law enforcement. However, the College will assist any victim with notifying law enforcement if the victim so desires.

Fennimore Police Department may also be reached directly by calling (608) 822-3215, in person at 860 Lincoln Ave, Fennimore WI. Additional information about the [City of Fennimore Police Department](#) is available on their website.

Southwest Tech does not have any non-campus locations of student organizations officially recognized by the College and does not require local police agencies to report criminal activities for this purpose. For non-campus facilities owned or controlled by the College, local police agencies do report criminal activities.

Southwest Tech's policy on Hazing is included in the Student Code of Conduct policy. A definition of Hazing has been included in the Code of Conduct policy along with the student behavioral misconduct procedure and sanctions the College will follow.

Student Hazing Behavioral Misconduct Procedure and Sanctions

Any member of the College community may report a Hazing violation of the Code of Conduct. Individuals who report a violation are referred to as "complainants" and individuals alleged to have violated the code are referred to as "respondents." Reports should be made using the reporting form on the college website or reported directly to the following individuals:

Student Complaints

Holly Clendenen
Chief Student Services Officer
College Connection – Room 480
608-822-2362
hclendenen@swtc.edu

Reports should be sent as soon as possible following the alleged conduct to ensure timely investigation. All reports of Hazing misconduct made to other College employees will be referred to the Chief Student Services Officer or designee.

Complaints of student hazing misconduct will be addressed through the procedures set forth below. Generally, the process for addressing reports of hazing misconduct will be completed within thirty (30) business days although the College reserves the right to extend the timeline when necessary to complete an investigation.

Note: When the severity of the circumstances warrants, the Chief Student Services Officer; Executive Director of Facilities, Safety, & Security; Vice President of Administrative Services; Chief Human Resources Officer; and/or President may impose upon the respondent a

Southwest Wisconsin Technical College

temporary suspension or separation from the College, including classes and College housing.

Step 1: Notification of Incident

 - Contact law enforcement, if appropriate.
 - Meet with the complainant to understand the nature of the report and offer supportive services.
 - Gather other relevant information, if necessary.
 - Report to the Chief Student Services Officer who will determine whether to initiate an informal or formal resolution process.
 - Provide written notice to the respondent and complainant of the allegations in the report and inform them whether the College will initiate a formal or informal resolution process.

Step 2: Notification & Investigation

 - Conduct a thorough investigation which includes the following:
 - Interview complainant, respondent, relevant witnesses, and College officials, if appropriate.
 - Review relevant documents including: student records, disciplinary records, police reports, and audio and video recordings.
 - Review College policies and procedures.
 - After gathering all relevant information, meet with the respondent, share the information obtained, and provide respondent an opportunity to respond to the information.
 - If needed, conduct additional interviews or gather additional information.

Step 3: Findings & Sanctions

- Upon completion of the investigation, the Chief Student Services Officer will review the evidence and make findings based on a preponderance of evidence standard (whether a violation is more likely than not).
- Based on the findings, the Chief Student Services Officer will determine appropriate sanctions, in conjunction with other college officials when appropriate.
- The respondent will be notified in writing, delivered by email, mail or in person, of the findings and disciplinary sanctions (Decision).
- The Chief Student Services Officer is given broad authority to determine sanctions, based on the best interest of the respondent, complainant, other individuals, and the College. Discipline may include one or more sanctions listed below. All Decisions regarding behavioral misconduct will be maintained by the College in accordance with state and federal law.

- To consider new evidence, unavailable or not considered during the original investigation which may substantially impact the original finding or sanction. A summary of this new evidence and its potential impact must be included with the appeal request.
- A procedural or substantive error occurred that significantly impacted the outcome of the Decision. The specific error(s) alleged to have occurred must be identified in the appeal request.
- The sanctions imposed are substantially outside the guidelines set by the College for this type of offense or the cumulative conduct record of the responding student.
- Written appeals based on new evidence should be submitted to the Chief Student Services Officer.
- Written appeals based on procedural error or disproportionate sanctions should be submitted to the Chief Academic Officer
- If an appeal is not timely or warranted under these procedures, the Decision will be final.

Upon receipt of an appeal based on new evidence, the Chief Student Services Officer, or designee, shall:

- Notify the complainant or respondent when appropriate under the law.
- Review the appeal to determine if the appeal is warranted.

See Appeals Panel Guiding principles for further details.

Step 6: Notification of Appeal Outcomes

- The decision of the Chief Student Services Officer (for appeals on the basis of new evidence) or Appeals Panel (for appeals on the basis of a procedural error or disproportionate sanctions) is final.
- Within two (2) business days following a decision by the Chief Student Services Officer or Appeals Panel, the Chief Student Services Officer shall notify the appellant, in writing, of the decision and implement any issued sanctions.

By only sharing personally identifiable information with individuals on a need-to-know basis, the institution will maintain as confidential, any accommodations or protective measures provided to the victim to the extent that maintaining such confidentiality would not impair the ability of the institution to provide the accommodations or protective measures.

The College does not publish the name of crime victims or other identifiable information regarding victims in the daily crime log, annual crime statistics, and on the Campus Transparency Hazing Report that are disclosed in compliance with the *Jeanne Clery Campus Safety Act*. Furthermore, if a Timely Warning Notice is issued, the name of the involved parties will be withheld.

Employee Hazing Behavioral Misconduct Procedure and Sanctions

Any member of the College community may report a Hazing violation by an employee. Reports should be made using the reporting form on the college website or reported directly to the employee's supervisor or the following individual:

Complaints of employee hazing misconduct will be addressed through the procedures set forth below.

Workplace Violence, Bullying, and Hazing Policy in Employee Handbook

The College expressly prohibits any acts or threats of violence by any person in or about the College facilities or elsewhere at any time. The College also will not condone any acts or threats of violence against the students, employees, customers, or visitors who are on the College premises at any time or while they are working, either on or off the College premises. The College will not tolerate hazing behavior by any employee.

In keeping with the spirit and intent of this policy and to ensure that the objectives of the College in this regard are attained, the College is committed to the following:

- Provide a safe and healthy work environment in accordance with the College's Values.
- Take prompt action, up to and including termination, against any employee who engages in any threatening behavior or acts of violence, including hazing, or who uses any obscene, abusive, or threatening language or gestures.
- Take appropriate action when dealing with any individual who engages in such behavior. Such action may include notifying the police or other law enforcement personnel and prosecuting violators of this policy to the maximum extent of the law.
- Prohibit students, employees, former employees, customers, and visitors from bringing unauthorized firearms or other weapons onto the College premises.

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

- Establish viable security measures to ensure the College facilities are safe and secure to the maximum extent possible and to properly handle access to College facilities by the public, off-duty employees, and former employees.

Employees have a duty to warn their supervisors, campus administrators, security personnel, or human resource representatives of any suspicious workplace activity or situations or incidents they observe or they are aware of, whether they involve other employees, students, former employees, vendors, or visitors. This includes, for example, threats or acts of violence, aggressive behavior, offensive acts, threatening or offensive comments or remarks, hazing, and bullying.

Hazing as defined by the college is any intentional, knowing, or reckless act committed by a person (whether individually or in concert with other persons), against another person or persons regardless of the willingness of such other person or persons to participate, that

- Is committed in the course of an initiation into, an affiliation with, or the maintenance of membership in, a student organization (an organization at an institution of higher education in which two or more of the members are students enrolled at the institution of higher education, whether or not the organization is established or recognized by the institution); and
- Causes or creates a risk, above the reasonable risk encountered in the course of participation in the College or a College organization (such as the physical preparation necessary for participation in an athletic team), of physical or psychological injuring including:
 - Whipping, beating, striking, electronic shocking, placing of a harmful substance on someone's body, or similar activity;
 - Causing, coercing, or otherwise inducing sleep deprivation, exposure to the elements, confinement in a small space, extreme calisthenics, or other similar activity;
 - Causing, coercing, or otherwise inducing another person to perform sexual acts;
 - Any activity that places another person in reasonable fear of bodily harm through the use of threatening words or conduct;
 - Any activity against another person that includes a criminal violation of local, State, Tribal, or Federal law; and
 - Any activity that induces, causes, or requires another person to perform a duty or task that involves a criminal violation of local, State, Tribal, or Federal law.

The College defines bullying as "inappropriate behavior," either direct or indirect, whether verbal, physical, or otherwise, conducted by one or more persons against another or others, at the place of work and/or in the course of employment. Hazing and bullying behaviors violate the College's Core Values, which convey that all individuals will be treated with dignity and respect.

Employee reports made pursuant to this policy will be held in confidence to the maximum possible extent. The College will not condone any form of retaliation against any employee for making a report or participating in an investigation under this policy.

Complaint and Investigation Process

- **Filing a Complaint:** Employees who believe they have experienced or witnessed workplace violence, threats, hazing, or bullying should promptly report the matter to their supervisor, Human Resources, or campus security. Completing a report a concern or complaint form on the Southwest Tech website is recommended. If the concern involves a supervisor, employees may go directly to Human Resources.
- **Acknowledgment of Report:** Human Resources will acknowledge receipt of the complaint and ensure the employee understands next steps in the process.
- **Initial Review:** Reports will be reviewed to determine whether immediate safety measures are required (e.g., suspension of the alleged offender, security intervention).
- **Investigation:** A fair and impartial investigation will be conducted, which may include interviews with the complainant, the accused, and witnesses, as well as a review of relevant documents, electronic communications, or other evidence.
- **Findings and Action:** Following the investigation, Human Resources (in consultation with appropriate administrators) will determine whether a policy violation occurred and recommend appropriate corrective or disciplinary action, up to and including termination.
- **Confidentiality:** All investigations will be handled as confidentially as possible, with information shared only on a need-to-know basis.
- **Non-Retaliation:** Retaliation against anyone who makes a good-faith report or participates in an investigation is strictly prohibited and will itself be treated as a violation of this policy.

Employee Discipline

Discipline may take the form of a verbal warning, written warning, suspension (with or without pay), disciplinary demotion, or termination, depending upon the circumstances. The severity of the discipline shall be determined by the College in its sole discretion and in accordance with its Disciplinary Procedures.

The supervisor, in consultation with Human Resources, may place an employee on a performance improvement plan (PIP). The employee must demonstrate a willingness and ability to meet and maintain the conduct and work requirements as specified in the PIP and failure to do so could result in disciplinary action up to and including termination.

When warranted, an employee may be suspended (with or without pay), during an investigation of an alleged violation.

Local, State & Tribal Laws on Hazing

Southwest Wisconsin Technical College is located in the City of Fennimore, Wisconsin. There are no local laws related to the specific topic of hazing. Local law enforcement use the State of Wisconsin law. Southwest Tech has no federally recognized tribes located within the district boundaries, and no tribal lands or tribal laws apply within the jurisdiction of the institution.

In the State of Wisconsin, hazing falls under State Statute 948.51. The Statute states:

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

- (1) In this section “forced activity” means any activity which is a condition of initiation or admission into or affiliation with an organization, regardless of a student’s willingness to participate in the activity.
- (2) No person may intentionally or recklessly engage in acts which endanger the physical health or safety of a student for the purpose of initiation or admission into or affiliation with any organization operating in connection with a school, college or university. Under those circumstances, prohibited acts may include any brutality of a physical nature, such as whipping, beating, branding, forced consumption of any food, liquor, drug or other substance, forced confinement or any other forced activity which endangers the physical health or safety of the student.
- (3) Whoever violates sub. (2) is guilty of:
 - (a) A Class A misdemeanor if the act results in or is likely to result in bodily harm to another.
 - (b) A Class H felony if the act results in great bodily harm to another.
 - (c) A Class G felony if the act results in the death of another.

Hazing Prevention & Educational Programming

Southwest Tech provides an environment that values respect, learning, and student success. Hazing in any form will not be tolerated. Hazing prevention and awareness education supports the College's commitment to maintaining a safe and respectful campus community.

Students complete Hazing Prevention and Awareness Training through an online training module available in the student portal. The training includes the Student Code of Conduct Policy, including the federal definition of hazing adopted by the College, prohibited hazing behaviors, sanctions for hazing, and the process used to investigate reports of hazing. The training also provides information regarding hazing statistics, bystander intervention strategies, available resources, applicable federal and Wisconsin hazing laws, and reporting tools used to notify campus authorities and local law enforcement of hazing behavior.

Employees receive hazing-related information through the annual Employee Handbook acknowledgment process. The Employee Handbook includes the College's Workplace Violence, Bullying, and Hazing Policy, which outlines the College's prohibition of hazing, reporting expectations, investigation procedures, and potential disciplinary consequences for hazing-related conduct. Employees may also periodically receive hazing prevention and awareness education through College in-service and professional development programming.

Campus Hazing Transparency Report

The College maintains a Campus Hazing Transparency Report (CHTR) in a prominent location on its website. The CHTR is updated at least twice annually in accordance with applicable federal requirements. Hazing statistics are also published annually in the College's Annual Security and Fire Safety Report.

For purposes of the Campus Hazing Transparency Report, a student organization is any organization, club, team, society, association, or other group in which two or more of the

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

members are enrolled students and that is recognized by, registered with, established by, sponsored by, or otherwise subject to the authority and disciplinary processes of Southwest Wisconsin Technical College. To count a person as a student, the student must be enrolled in one credit or more in a term.

The primary difference between the Campus Hazing Transparency Report and the hazing incident statistics reported in the Annual Security and Fire Safety Report is that the Annual Security and Fire Safety Report includes hazing incidents involving student organizations that are recognized, established, or unrecognized by the College, as required by federal law. The Campus Hazing Transparency Report focuses on hazing findings involving student organizations that are subject to the College's authority and disciplinary processes. A summary of the differences between the Stop Campus Hazing Act disclosure requirements for the Campus Hazing Transparency Report and the Annual Security and Fire Safety Report follows.

Requirements	Crime Statistics and Policy Statement Disclosures	Campus Hazing Transparency Report (CHTR)
What	Include Hazing incidents meeting the Federal definition reported to a Campus Security Authority or Local Law Enforcement	Include Hazing Incidents reported to a Campus Security Authority that result in a finding violating the institution's Hazing policy
By Whom	Registered, recognized, established or unrecognized student organizations	Registered, recognized, or established student organizations
Geography	Clery Geography	Any location the institution's Hazing policy has jurisdiction
How to Count	Distinct Incident Count	Organizations found responsible count based on distinct investigations (could involve multiple separate incidents in a single report)
Special Reporting Considerations	Not subject to hierarchy rule. Therefore, count other co-occurring Clery crimes.	Not required to develop until there is a finding of Hazing
Where Disclosed	Annual Security Report and to the Department of Education via the CSSDACT	Detailed report located prominently on college website
Policy Disclosures	Statement of current policies related to Hazing and prevention and awareness programs	• Statement notifying public of annual availability of hazing statistics • Information related to institutional policies related to hazing • Applicable local, state & tribal laws on hazing

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

The Transparency Report will include the name of the organization, general description of the violation, whether hazing involved the abuse or illegal use of alcohol or drugs; key dates - including date of incident, the start and end dates of investigation, and the date the student organization was notified of the outcome; findings (rationale) for the determination of responsibility; and the sanctions imposed on the student organization.

Campus Crime Statistics

The Executive Director of Facilities, Safety, & Security and the Grants & Compliance Manager (both are Clery Compliance Officers) collaborate on assigning the crimes to the annual disclosure of crime statistics. The crimes are gathered from a student behavior data system, law enforcement agencies for non-campus locations owned or controlled by the college, and from Human Resources. Sixty-eight percent (68%) of law enforcement responded to the requests for crime statistics for locations where the college held classes.

Fire Safety Education and Training Programs

Fire safety education programs for all students living in on-campus student housing and all employees that have any association with on-campus student housing are held at the beginning of each semester. These programs are designed to familiarize everyone with the fire safety system in each housing facility, train everyone on the procedures to be followed in case there is a fire and distribute information on the College's fire safety policies.

Everyone is also provided with maps of each on-campus student housing facility that illustrate evacuation routes and fire alarm equipment locations. During these programs, trainers emphasize that participating in fire drills is mandatory. Students with disabilities are given the option to have a "buddy" assigned to them. Fire safety education and training programs are taught by local fire authorities.

Faculty and staff are provided education on fire safety and information on how to report a fire, or evidence of a fire, to whom, and procedures to be followed for non-residential buildings on campus when a fire alarm signals. Safety and evacuation information is included in the Southwest Tech Emergency Response Plan and the Southwest Tech Student Housing Emergency Response Plan. Evacuation maps are posted in every classroom, lab, and office area.

Each Southwest Tech building has fire evacuation plans posted in common areas. All employees are encouraged to become familiar with the escape routes for all buildings and floors and the locations of fire extinguishers, hoses and alarms. In the event of a fire or evacuation, every employee should follow the fire safety evacuation route and vacate the

premises until the official in charge (EOC Manager) declares the premises safe to enter. Exits and areas around fire extinguishers must be kept clear at all times. Monthly fire safety inspections and bi-annual drills are held to test equipment and procedures by Facilities, Safety, & Security staff.

Procedures Students and Employees Should Follow in Case of a Fire

Procedure for Student Housing

The Student Housing Emergency Response Plan contains fire safety and evacuation procedures that students and employees should follow in the event of a fire, including the following:

Fire or Explosion- Fire Drills will be conducted each semester.

In situations when a fire or explosion occurs, the primary concern is the welfare and safety of tenants and guests. Tenants should carefully assess the circumstances and use their best judgment when responding to the situation. No one should unnecessarily and unreasonably place themselves or others in jeopardy. Anytime the fire alarm sounds, all tenants and guests should be evacuated immediately. The following procedures shall serve as guidelines for staff responding in a fire or explosion emergency.

During evacuation, please be aware of tenants or guests with special needs or disabilities to assure their safety as well.

Immediate Action for Reporting a Fire

- If you live in the 6-plex or 8-plex pull the fire alarm.
- When a fire is discovered, regardless of the severity **Call 911 from a safe location to report the fire.**
- If it is safe to do so, and you are properly trained in its use, use the nearest fire extinguisher to control the fire until the fire department arrives on the scene.

Action When Alarm/Smoke Detector Sounds

- Tenants and guests should use the fastest and clear emergency exit route to evacuate the building. Move a minimum of 500 feet from the building. **Remain calm - DO NOT panic.**
- If it is safe to do so and you do not live in a building with fire alarms, alert the tenants in your building to evacuate immediately.

Southwest Wisconsin Technical College

2026 Annual Security & Fire Safety Report

- If it is safe to do so, close all doors and windows, turn-off lights, and shut-off electrical and gas operated equipment when leaving the area.
- When area is evacuated the last person out will place a **RED** evacuated tag on door.
- If it is safe to do so, RAs should conduct a quick walk-through inspection of common spaces to ensure that all persons have left the building.
- The RA should proceed out of the building and ensure that all persons are an adequate distance (a minimum of 500 feet) away from the building.
- Housing tenants will meet in the Ag/Auto Building 1700 Hallway (See Exhibit C)
- RA's should ensure that individuals remain outside until told to reenter the building.
- RA should contact the Resident Life Manager soon as possible

Evacuation for Campus Fires by All Staff, Students, and Visitors

Southwest Tech has outlined in the Southwest Tech Emergency Response Plan the evacuation procedures to use when there is a campus fire or explosion. The plan states:

Fire or Explosion

In situations when a fire or explosion occurs, the primary concern is the welfare and safety of students and staff. Staff should carefully assess the circumstances and use their best judgment when responding to the situation. No one should unnecessarily or unreasonably place themselves or others in jeopardy.

During an evacuation please be aware of students, staff, or visitors with special needs or disabilities who may need assistance to ensure their safety.

Immediate Action for Reporting a Fire/Explosion

When a fire or explosion occurs, regardless of the severity, go immediately to the nearest alarm box and pull the lever to activate the fire alarm system. Call for emergency assistance from a safe location to report the incident.

Note: Emergency assistance can be reached by dialing 911 from a district phone (there is no need to dial 9-911).

If it is safe to do so, and you are properly trained in its use, use the nearest fire extinguisher to control the fire until the local fire department arrives on the scene.

Contact Southwest Tech Facilities, Safety, & Security at extension 2400 to notify the Executive Director of Facilities, Safety, & Security.
