## **Annotated Agenda**

### **BOARD MEETING NOTICE/AGENDA**

Thursday, April 25, 2019

6:00 p.m. – Dinner and Student Senate, Veterans, Mental Health Presentations

7:00 p.m. - Board Meeting

Rooms 492-493 – College Connection

### **REVISED ANNOTATED AGENDA**

#### **OPEN MEETING**

The following statement will be read: "The April 25, 2019, regular meeting of the Southwest Wisconsin Technical College Board is called to order. This meeting is open to the public and in compliance with State Statutes. Notice of the meeting has been sent to the press and posted on campus and in the City of Fennimore in an attempt to make the general public aware of the time, place and agenda of the meeting."

#### **A. Roll Call**

#### **B. Reports/Forums/Public Input**

#### **CONSENT AGENDA**

##### **A. Approval of Agenda**

The April 25, 2019, agenda is included with the electronic Board material.

##### **B. Minutes of the Regular Board Meeting of March 28, 2019**

Minutes from the March 28, 2019, regular Board meeting are included with the Board packet.

##### **C. Financial Reports**

###### **1. Purchases Greater than \$2,500**

###### **2. Treasurer's Cash Balance**

###### **3. Budget Control**

Each report is available electronically with all other Board material. Caleb White, Vice President for Administrative Services, will be at the meeting and available for any questions.

##### **D. Contract Revenue**

There were nine contracts totaling \$33,365.81 in March 2019 being presented for Board approval. The Contract Revenue Report is included with the electronic Board material.

**E. Personnel Items**

One employment recommendation, one promotion, and two resignations are being presented for approval in the Personnel Report.

**F. 2019-20 Out-of-State Tuition Waivers**

Annually, the College submits to the WTCS State Board for approval a waiver of out-of-state tuition for needy and worthy students. It is a projection of total students and credits.

The request is included with the electronic Board material.

**Recommendation:** Approve the Consent Agenda, as presented.

**OTHER ITEMS REQUIRING BOARD ACTION**

**A. Enterprise Resource Planning System**

College staff have been working with the consulting firm, CampusWorks, on a solution to the College's Enterprise Resource Planning System. Included in the electronic material is a final report from Campus Works. Also included in the material is a revised agreement to the Management Consulting Services Agreement with CampusWorks. The internal staff team that has been working with CampusWorks will present the recommendation at the Board meeting.

**Recommendation:** (Available at the Board meeting)

**B. Platteville Outreach Site Lease**

Included in the electronic Board material is a six-month lease expiring December 31, 2019, for the current location of the Platteville Outreach Site at the OE Gray Building, 110 W. Adams Street, Platteville, WI 53818. This lease is for two rooms at \$350.00 per month for each of the rooms. Caleb White will be present at the meeting to discuss the lease.

**Recommendation:** Approve the six-month lease with Platteville School District to lease two classrooms at 110 W. Adams Street, Platteville, WI, for \$700.00 per month.

**C. Dodgeville Outreach Site Lease**

A lease amendment is included in the Board material for the Dodgeville Outreach Site, located at 316 W. Spring Street, Dodgeville, WI 53533. This lease amendment is a 12-month contract to rent the facility for \$1100.00 per month. Caleb White will be present at the meeting to discuss the lease.

**Recommendation:** Approve the 12-month lease with Capitol Dodgeville, LLC, to lease space at 316 W. Spring Street, Dodgeville, WI, for \$1,100.00 per month.

**BOARD MONITORING OF COLLEGE EFFECTIVENESS**

**A. Foundation Quarterly Report**

Holly Clendenen, Executive Director of the Foundation and Real Estate Foundation, will present a quarterly Foundation report to the Board highlighting the activities and results of fundraising efforts and other initiatives. The FY19 Third Quarter report is available with the electronic Board material.

**B. FY2020 Budget Update**

Caleb White will present an update on the FY2020 budget. Included with the electronic Board packet is the current General Fund overview.

**C. Staffing Update**

Krista Weber, Chief Human Resources Officer, will provide an update on College staffing. A summary is available electronically with the Board material.

**INFORMATION AND CORRESPONDENCE**

**A. Enrollment Report**

The 2018-19 and 2019-20 Comparison Enrollment Reports and the Fall 2019 Application Report are included in the electronic Board material.

**B. Chairperson's Report**

1. District Boards Association Spring Conference

**C. College President's Report**

1. More Students Learning More
2. Outreach Locations
3. Update from In-Service
4. Student Success Policy Next Steps – Shaping the College for the Future
5. Recognizing Faculty and Staff Excellence at Graduation
6. College Happenings

**D. Other Information Items**

**ESTABLISH BOARD AGENDA ITEMS FOR NEXT MEETING**

**A. Agenda**

1. Proposed Budget
2. State Of College Report
3. Financial Sustainability Monitoring Report

- A. Consideration of adjourning to closed session for the purpose of
  - 1. Discussing property acquisition per Wis. Statutes 19.85(1)(e) {Deliberating or negotiating the purchasing of public properties, the investing of public funds, or conducting other specified public business, whenever competitive or bargaining reasons require a closed session.}.
  - 2. Discussion of personnel issues per Wis. Stats. 19.85 (1)(f) {Considering financial, medical, social or personal histories or disciplinary data of specific persons, preliminary consideration of specific personnel problems or the investigation of charges against specific persons except where par. (b) applies which, if discussed in public, would be likely to have a substantial adverse effect upon the reputation of any person referred to in such histories or data, or involved in such problems or investigations.}
  - 3. Discussion of preliminary notices of non-renewal per Wis. Stats. 19.85(1)(c) {Considering employment, promotion, compensation or performance evaluation data of any public employee over which the governmental body has jurisdiction or exercises responsibility.}
  - 4. Approval of Closed Session Minutes – February 22, 2019

### **RECONVENE TO OPEN SESSION**

- A. Action, if necessary, on Closed Session Items

## **ADJOURNMENT**

**{Facilities at Southwest Tech are handicap accessible. For all accommodations call 608-822-2400 or 608-822-2401 to reach the Director of Facilities, or e-mail [accom@swtc.edu](mailto:accom@swtc.edu)}**

After a review of the Consent Agenda, including the March 28, 2019, agenda; February 22-23, 2019, Board minutes; financial reports; 12 contracts totaling \$15,910.60 in February 2019; the retirements of Jim Broihahn – Building Trades-Carpentry Instructor and Tim Evans – Dining Services-Cook, and the resignation of Heather Ringberg – Online Navigator, Mr. Tuescher moved to approve the Consent Agenda. Ms. Nickels seconded the motion; motion carried.

The Board heard a second reading of Governance Policy 2.6: Acting President. Mr. Moyer moved to approve the second reading of Governance Policy 2.6: Acting President, as presented. Mr. Bolstad seconded the motion; motion carried.

Dr. Wood reviewed the lease with TWA Properties of Richland Center, WI, for 3,400 square feet of office/classroom space located at 373 W. Sixth Street, Richland Center, WI. This will be the location for Southwest Tech's Outreach Site in Richland Center when the current lease ends on June 30, 2019. Mr. Tuescher moved to approve the 61-month lease with TWA Properties of Richland Center, WI, beginning June 1, 2019, and ending on June 30, 2024, for 3,400 square feet of office and classroom space located at 373 W. Sixth Street, Richland Center, WI 53581, at a cost of \$3,400 each month for the first two years. Ms. Nickels seconded the motion; motion carried.

Krista Weber, Chief Human Resources Officer, and Josh Bedward, Master Electrician/Facilities Lead, updated the Board on the proposed tool to be used in performance management. The draft performance management tool and timeline were presented to the Board. The project team researched best practices in performance management, selected performance evaluation criteria and metric options, and created a tool that incorporates the College Values and Core Abilities into the performance management tool. The next steps are to select technology for implementation, train supervisors, implement a "dry run" of the performance tool in April – June and evaluate/adjust for the next cycle, and to finalize compensation structure for 2019-2020.

Dr. Katie Garrity, Chief Academic Officer, presented the Quality Teaching & Learning Board Monitoring Report focused on course completion, graduation rates, retention rates, job placement, and current initiatives used to increase access and improve student success through quality teaching and learning. Future efforts include increased ABE/GED transitioning aligned with academies; focused assessment and alignment with programs, Gen Ed, co-curricular, and advising; expanded & focused recruitment activities; expanded outreach; and new programming.

Dr. Garrity reviewed the current outreach sites and introduced potential options for outreach locations. Opportunities that exist include increased ABE transition and pathway entry, academy enrollment, new programs, and online expansion. A data-driven program pro forma will be developed that is targeted and focused, regional, and unique and is focused on employment opportunities, family sustaining wages, and employer support. The college will be looking beyond adult basic education at opportunities that do not compete with what we offer on campus, potential new opportunities in a niche market, and online as a way to reach potential students we are currently not serving.

Holly Clendenen, Executive Director of College Advancement, and Dan Imhoff, Director of Facilities, Safety & Security, provided an update on the Master Facilities Plan including potential

student life options. They showed potential architectural drawings for the cafeteria and kitchen, Lenz Center, Bookstore, meeting rooms, and a welcome center. Also included in the report was a rendering of a multi-purpose dome that would be used to enhance student life offerings and potentially rent out the facilities for tournaments, trade shows, etc. Ms. Clendenen and Mr. Imhoff will be meeting with the Student Senate in May.

Krista Weber, Chief Human Resources Officer, updated on College staffing. She updated on the status of the open positions of two Associate Degree Nursing instructors, an Ag Power & Equipment Technician Instructor, and a Farm Business & Production Management Instructor. The Board reviewed the FTE comparison enrollment report and the fall 2019 application report, which were down 2.8% and 5.4% respectively.

Dr. Wood shared that a final report had been received from the consulting firm hired to review our enterprise resources planning (ERP) system and they will present at the April Board meeting. He also shared that a very generous gift of \$600,000 had been received in the Foundation for scholarships. A third-party vendor used through the Bookstore was breached and many colleges were affected with 16 student accounts from Southwest Tech being compromised. The vendor is working with the colleges and those whose accounts were breached. There was a recent Job Fair where 84 employers participated. Charles Bolstad was elected to serve another three-year term on the Board. The next Board Appointment meeting will be held May 16 for the open positions of Employee and Employer Members, both from the North. Two presentation requests, one on internal governance structure and the other on success in fundraising, will be submitted for the ACCT Leadership Congress in October 2019.

Mr. Tuescher moved to adjourn to Closed Session for the purpose of discussing property acquisition per Wis. Stats. 19.85(1)(e), personnel issues per Wis. Stats. 19.85(1)(f), and preliminary notices of non-renewal per Wis. Stats. 19.85(1)(c). Ms. Nickels seconded the motion. Upon a roll call vote with all members voting affirmatively, the Board meeting adjourned to closed session at 8:32 p.m. The Board reconvened to open session at 9:07 p.m. with no action taken.

With no further business to come before the Board, Mr. Moyer moved to adjourn the meeting with Ms. Nickels seconding the motion. The motion carried and the meeting adjourned at 9:08 p.m.

---

Darlene Mickelson, Secretary

## ***E. Personnel Items***

One employment recommendation, one promotion, and two resignations are being presented for Board approval. The Personnel Report is included below.

### **PERSONNEL REPORT April 25, 2019**

#### **Employment: NEW HIRES**

Name	Justin Rounds
Title	Ag Power & Equipment Technician Instructor
Number of Applicants and Number Interviewed	11 applicants, 5 interviewed
Start Date	April 18, 2019
Salary/Wages	\$57,000
Classification	Full-Time
Education and/or Experience	Ag Power & Equipment degree at SWTC with 8 years of Service Technician experience and 4 years of Machine Operation experience

#### **PROMOTIONS / TRANSFERS**

Mandy Henkel	College Effectiveness Manager (Effective 7/1/2019)
--------------	--

#### **RETIREMENTS / RESIGNATIONS**

Holly Miller (Resignation 6/20/2019)	Chief Student Services Officer
Brian Molini (Resignation 5/15/2019)	Academic Success Coach

### ***F. 2019-20 Out-of-State Tuition Waivers***

Annually, the College submits to the WTCS State Board for approval a waiver of out-of-state tuition for needy and worthy students. It is a projection of total students and credits. The request is included below.

## **2019-20 Out-of-State Tuition Waivers**

Southwest Wisconsin Technical College requests authority from the WTCS President to remit out-of-state tuition for 675 credits for 25 needy and worthy students during the 2019-20 academic year. The district projects 1300 FTEs (net of Community Services) for the year.

**Recommendation:** Approve the Consent Agenda as presented.

## **Other Items Requiring Board Action**

### ***A. Enterprise Resource Planning System***

College staff have been working with the consulting firm, CampusWorks, on a solution to the College's Enterprise Resource Planning System. Included in the electronic material is a final report from Campus Works. Also included in the material is a revised agreement to the Management Consulting Services Agreement with CampusWorks. The internal staff team that has been working with CampusWorks will present the recommendation at the Board meeting.

**Recommendation:** (Available at the Board meeting)

# ERP Fit-Gap Analysis and Needs Assessment

## Executive Summary

Prior to 2010 Southwest Wisconsin Technical College (SWTC) was part of a consortium of schools using PeopleSoft hosted in Madison, Wisconsin. A number of issues prompted SWTC to leave the consortium in 2010 and find their own ERP system. The main reasons for leaving were cost and lack of autonomy. When the choice was made to leave the consortium, there was no analysis of current processes to help inform the selection process of a new system. CAMS Enterprise, then a product of Three Rivers, was selected because of its size and cost.

There were a number of functions that Three Rivers promised CAMS Enterprise could do, but were never delivered, for example, third-party billing and state reporting. CAMS Enterprise was implemented without the help of consultants or professionals with application migration experiences. Three Rivers provided some help, but it was limited. At the time the goal of the implementation was to make CAMS Enterprise replicate the behavior of PeopleSoft. This required a lot of customization and over time the SWTC has relied on customization and third-party applications to maintain the needed functionality.

The staff at SWTC is exceptional and they are all committed to providing a good student experience and are committed in their support for needed change.

The leadership of SWTC reached out to CampusWorks to conduct a Fit-Gap assessment of the CAMS Enterprise system. The CampusWorks team does not see a way that the College can effectively continue with the current implementation of CAMS Enterprise. Our recommendation is that SWTC goes through the process of selecting a new ERP system. The implementation of a new system should include conducting a reimagine and redesign process to identify and map operational processes with the focus on the student experience. Once the processes are mapped and documented then an ERP system can be selected that will be able to support those processes. The mapped processes will help inform the creation of an RFP and will also be an integral part of the new configuration as part of the whole implementation.

The following is the report of the assessment and detailed recommendations.

## Introduction

In February of 2019, Southwest Wisconsin Technical College (SWTC) engaged CampusWorks, Inc. to conduct an assessment of the current status of SWTC's implementation of the CAMS Enterprise resource management system (CAMS). This assessment falls under SWTC's Strategic Initiative "Process Efficiency: IT Savings & Investments." While the goal of this initiative is to "achieve fiscal sustainability," the scope of the project is far more comprehensive. The engagement considered the following questions:

- How do the current implementation and use of the CAMS and the third-party systems align with the College's strategic objectives and what are the strengths and weaknesses?
- To what extent is the current CAMS functionality in use at SWTC as intended and where are opportunities to better leverage current technology?
- What opportunities are there to increase the College's return on its current CAMS investment?
- Are business process and procedures aligned and leveraging the CAMS system to deliver the desired student experiences across the College?
- Where does the College need to go with the enterprise systems holistically over the next three to five years to achieve the desired strategic and operational outcomes?
  - Stay with CAMS and make improvements?
  - Upgrade to Unit4?
  - Invest in a new ERP?
- What priority should be assigned to further implement and develop business processes and the use of CAMS to provide the best gains in services delivery, efficiency, and cost avoidance and reduction?
- What is the current level of readiness for the functional and technical teams as well as budget resources in comparison with other similar-size Colleges?

To address the above questions the CampusWorks team of technical and functional experts conducted the following scope of work:

- Three (3) consultants were onsite at SWTC for three days to review the current use of CAMS and assess process flow. The consultants were:
  - Scott Doxey, Portfolio Executive Team Lead
  - Julie Falconer, Program Manager and Senior Optimization Executive
  - Bob Walker, CIO
- In addition to the on-site consultants, further assistance was provided by:
  - Gabrielle Jones, Coordinator, Client Logistics/Administrative Operations
  - Jamey Palmieri, Portfolio Director
  - Joseph Rossmeier, Ph.D., VP Client Development

- In-person interviews were conducted through approximately 30 individual and group sessions including a total of 26 students, faculty, and staff.
- The team reviewed documentation provided by SWTC before, during, and after the site visit, and additional documentation was provided as requested.
- Interviews and document analysis considered the following key components of the effort:
  - CAMS component usage
  - CAMS documentation and support resources
  - The health of the underlying data structures
  - Security of the data and application software
  - Initial and ongoing training
  - Staff capabilities
  - Shared governance for process, data, and projects
  - Adherence to data, metric, and process definitions
  - The regularity of system updates and patching
  - Technical issues and response time
  - Integration with third-party systems
- At the conclusion of the third day, the CampusWorks team discussed the initial key findings and recommendations with President Wood and his Cabinet.

In addition to the “First Look” initial findings, other deliverables have been developed. These include:

- A Preliminary Report to summarize early findings within the first few business days following the on-site interviews was delivered on Wednesday, February 20, 2019. Though not a complete review, this report provided President Wood and Vice President White with information that would be helpful during the Board planning retreat at the end of the week following the initial campus visit.
- A Written Report (this document) of the assessment findings, observations and recommendations will be delivered with a presentation and includes the following items:
  - Recommendations to enhance the level of service in each key area as well any identified risks and unmet needs at the College.
  - A final gap analysis that will detail areas where SWTC is successful, as well as those areas that need attention. The analysis will include solutions to identified risks and recommended software enhancements as well as the recommended path forward for the College and their ERP environment long term.
  - Recommendations will be shown in a visual roadmap as well to provide the College with a guide to moving forward.
- A Presentation of Findings to the Cabinet will be delivered on campus on March 15, 2019. The presentation will provide an overview of the observations and recommendations for the current use of CAMS and the needs for the ERP

environment over the next three to five years.

- The goal of these briefings is to create a dialogue with the correct constituents so that SWTC is left with actionable and realistic plans for moving forward with an ERP (re)implementation.
- The presentation of findings will be a PowerPoint in summary format, and SWTC may optionally schedule presentations of the evaluation findings to other College groups on this same day.

## POSITIVE INDICATORS

As a team that encounters cultures of all varieties, we truly enjoyed meeting with students, faculty, and staff at SWTC. We found a culture willing to embrace change, which is an optimal starting point. Some of the other positives of note include:

- Leadership is leading the College in a positive direction
- Leadership commitment to ensuring the success of all system, process, and service improvements
- A desire to improve the student experience
- SWTC is very people-centered
- Candid recognition of the challenges at hand
- Knowledgeable, responsible staff in functional areas
- Commitment to embracing industry best practices
- Data team has started working on a data dictionary
- Have gained operational efficiencies over the last three years
- ITS has advanced services in the past few years
- GL, trial balance, and payroll all working fairly well
- Continuing Education (CE) portal allows credit card/third-party payment for CE and driver's education courses
- Dashboard providing enrollment, retention, graduation data
- IT's full commitment to supporting needed change
- Cultural change over the past few years has prepared faculty and staff to seek and anticipate improvements

## Scope of Work Findings

### STRATEGIC ALIGNMENT OF CAMS

*How do the current implementation and use of the CAMS and the third-party systems align with the College's strategic objectives and what are the strengths and weaknesses?*

Southwest Wisconsin Technical College has three Strategic Priorities (*Strategic Plan 2018-2019*). They are:

- Increase Student Access and Success
- Strengthen a Culture of Integrity
- Ensure Fiscal Sustainability

In the group discussion with the students, they expressed their high satisfaction with the efforts of the Student Success Coaches. These coaches are doing an excellent job of reaching out and connecting with the students both before and after enrollment. If it were not for these Student Success Coaches the enrollment numbers would not be where they are.

The students also expressed their deep frustrations with the admissions and enrollment processes. The application process does not flow smoothly. The applicant fills out an application and creates a "one-time" login for the application. Smartsheets is used for most of the tracking and then applicants are manually moved into CAMS. There is little communication to the student throughout this process and it is not known how many potential students are lost in this process.

The two portals are very confusing to students. One portal is used for Continuing Education (CE) students so they can register and pay for their courses directly. The other portal is used for credit courses and the process to add or drop courses is complicated. There are numerous issues with the registration process, including checking for co-requisites and pre-requisites, as CAMS is unable to facilitate both simultaneously.

The existing combination of software systems and processes and workarounds to those systems and processes are not serving the College community in an effective manner and are not increasing *student access and success*. In fact, it is inhibiting access and without the help of the Student Success Coaches, it would be more prohibitive.

The current configuration of CAMS was set up to mimic operations in PeopleSoft, and additional "fixes" in the form of customization or third-party applications have been put in place to meet specific needs without the benefit of a comprehensive perspective of how information and related decisions should flow to best meet the needs of students, faculty, and staff. While there is no direct intention of inaccurate data, the *integrity* of the data in the system is at risk. This also creates an environment that instills skepticism in data reporting and, inadvertently, skepticism in information shared between departments. While this does not appear to have affected relationships between departments, it is an unnecessary impediment that causes staff to spend additional time checking and rechecking the information reported.

One of the reasons reported for the purchase of CAMS and migration away from PeopleSoft was because of costs. It was becoming very expensive to maintain the shared implementation of PeopleSoft. CAMS is much more affordable for an institution the size of SWTC. However, in the effort to be more fiscally responsible, resources were not invested upfront in a process review and redesign. There was not an effort to identify and implement best practices either from the industry or from CAMS. There was also minimal consulting sought for, nor provided by Three Rivers (now Unit4) for the implementation of CAMS.

Over the years, as the CAMS implementation could not be adapted to meet the changing needs of the College, customizations were favored over reconfiguration, and a newly written code was generated to write to and from the underlying database. This has continued to add expense and inefficiencies.

The College now finds itself with an inability to trust CAMS as a system of record and has created numerous workarounds including other data sources (Smartsheets etc.) and manual verification to complete procedures as accurately as possible. It is our opinion that the current implementation of CAMS is not supporting *fiscal sustainability*.

## LEVERAGING THE USE OF CAMS

*To what extent is the current CAMS functionality in use at SWTC as intended and where are opportunities to better leverage current technology?*

The current implementation of CAMS has limited use of intended functionality, especially for student records. Most customizations have been built to work with student data. Additionally, a thorough review of application security vulnerabilities is warranted due to single-factor authentication web login used to access and manipulate student data.

One positive area with CAMS is Microsoft Dynamics for the financial function. However, even with that, there is no budget module, so workarounds have been created for budgeting processes.

It is clear that CAMS is not being used as designed. Data fields are being used for purposes other than what is intended. For example, the date of birth is maintained in a mailbox field for use with digital imaging. In some cases, this is because CAMS did not have the needed functionality during implementation, and other cases are a result of not knowing where to look for a specific functionality or how the existing CAMS functionality was intended to be used. The initial implementation was not directed by a blueprint/process map of what functions were needed, and SWTC did not have needed support during the configuration of CAMS.

## RETURN ON INVESTMENT

*What opportunities are there to increase the College's return on its current CAMS investment?*

Unfortunately, the current implementation of CAMS will require a significant investment. Even if the College chooses to continue with CAMS it would require a completely new

implementation to ensure that the available functionality within CAMS is properly configured. However, based on our assessment, there is functionality required by SWTC that is not available within CAMS and there is no long-term guarantee that Unit4 will continue to invest in the development of CAMS Enterprise. Therefore, a re-implementation of CAMS would not increase a return on the current investment.

## **BUSINESS PROCESS ALIGNMENT**

*Are business process and procedures aligned and leveraging the CAMS system to deliver the desired student experiences across the College?*

As we have identified the fact that CAMS was configured to mimic the functionality of the previous enterprise information system (PeopleSoft), we know that the existing system is lacking efficiency. It is also lacking the functionality to deliver a positive student experience. There are many processes that have been created outside of the CAMS system in an attempt to enhance the student experience because functionality does not exist within CAMS. In many cases, this has complicated the student experience, such as in the registration process. It is confusing and difficult for students.

The first step in correcting this must be a collaborative, cross-functional effort to design process flows to most effectively meet the needs of students, the greater learning community, faculty, staff, administrators, alumni, and all external stakeholders (K-12, vendors, the Board, donors, the State of Wisconsin, and federal entities).

An ERP would then be configured to meet all possible needs as defined and become the true system of record. Additional applications would then be appended to this system to fulfill any functionality not available as part of the ERP.

## **ENTERPRISE SYSTEM DIRECTION**

*Where does the College need to go with the enterprise systems holistically over the next 3 to 5 years to achieve the desired strategic and operational outcomes? Stay with CAMS and make improvements? Upgrade to Unit4? Invest in a new ERP?*

Though Unit4 has continued support for CAMS, the majority of the development work at Unit4 has gone into their new ERP, Unit4 Student Management and Business World ERP. Over the years the industry has matured and grown. There are also a number of trends in Higher Education that have had an enormous impact on the ERP landscape. Some of those trends include:

- The rise of the non-traditional learner
- Increase in online learning
- Mobile ubiquity
- Social media
- Cloud strategy
- Information security
- Importance of data in decision making

ERP vendors have had a difficult time keeping up with these trends.

It is recommended that the College continue its efforts to identify and remedy data errors and complete an exercise to identify and classify all data fields (data dictionary) in preparation to either re-implement CAMS or migrate to another ERP. We also recommend that the College concurrently undertake a project to define and document all ideal business process flows – beginning with the desired student experience, from the first contact past graduation.

Following these efforts, we recommend that SWTC use the requirements identified in the process redesign sessions to create and release an open RFP to ERP vendors and/or their implementation partners, including Unit4/ CAMS, to determine through a competitive process which ERP software suite is most able to meet the needs of SWTC over the next 15-20 years. With an understanding of the redesigned processes and business requirements, the College will be in a strong position to evaluate each vendor and determine the extent to which SWTC's needs will be met by a given ERP.

As the College desires to avoid the initial and ongoing costs associated with customization, the option of moving to a cloud solution proves promising. This direction has the added benefit of reducing or eliminating the need for on-premise hardware, redundant environmental conditioning, backup power sources, and the resources required to maintain these data center components and conditions.

## **BUSINESS PROCESS FOCUS**

*What priority should be assigned to further implement and develop business processes and the use of CAMS to provide the best gains in services delivery, efficiency, and cost avoidance and reduction?*

As we have previously stated, the most important thing that can be done as part of a new implementation by the institution is a comprehensive process reimagine and redesign. The most important part of building a home or a building is creating the plans and mapping out where everything goes and how it integrates with the other parts of the building. It is the same in an ERP system. There are so many integrated parts that need to be mapped out and designed to work together with the overall goal of improving the student experience. It is not enough to create individually efficient processes; the processes must work together to create an efficient system.

Once the processes have been mapped and designed, then it becomes easier to identify those systems that will best be able to support those processes. The configuration process goes much smoother and everything becomes aligned. Although the overall initial cost may be higher, the long-term benefits outweigh the one-time expense. More importantly, the College gains efficiencies through simplified and streamlined processes, and increased student satisfaction will support increased student enrollment. The total cost of ownership is less and the return on the College's investment is greater.

## TEAM RESOURCE ASSESSMENT

*What is the current level of readiness for the functional and technical teams as well as budget resources in comparison with other similar-size Colleges?*

The functional and technical team's leaders are well positioned to lead an ERP transformation effort. The teams demonstrated both the readiness for change and subject matter expertise that would be necessary to successfully design and implement new operational processes and support ERP technology. However, resources within IT are scarce by comparison to other institutions of similar size.

A review of Information Technology staffing at the four closest-sized technical colleges in Wisconsin (Nicolet, Lakeshore, Blackhawk, and Mid-States) show an average of fourteen (14) FTEs compared to the eight (8) on staff at SWTC. IT Services maintains a significant service load without the addition of a major implementation. The College will need to rely upon additional or external resources to help ensure the success of an implementation.

Though enrollments have been on the decline, similarly sized colleges budget anywhere between four percent (4%) and seven percent (7%) of the institution's operating budget for Information Technology Services, apart from course design and development.

## Additional CAMS Concerns

Other concerns regarding the existing CAMS implementation include the following:

- The system requires multiple screens (tabs) to perform a simple function
- The more screens you have open, the slower the system runs
- CAMS technical support is not very responsive
- CAMS is running on an outdated Windows version. Waiting for new CAMS update to move to more recent Windows version
- Undocumented processes (information retained by individuals at risk when they depart)
- Training held during implementation not continued for new hires
- Lack of understanding of CAMS functionality. Custom development appears to be favored over learning and utilizing delivered CAMS functionality. CAMS manual is no longer useful as fields have been re-appropriated for other uses
- Some customizations write to ERP database
- The security model for custom development is unclear. Customizations accessed through login on web link but are not managed by role
- Student program information is populated in CAMS screens by copying and pasting from a Word document and duplicated in another module. This methodology introduces a lot of human error
- Repeated efforts – logins, redundant data entry
- Dependency on paper is inefficient
- Learning the work environment ad-hoc
- Information needed for role or decision-making is not readily available, must hunt for it
- Manual, individual record clean up needed for prospects. Same clean up needed for enrolled student program changes
- Fields intended for Clearinghouse reporting are used for other purposes so to report to Clearinghouse, IT must pull data and manipulate it before it can be sent. These reports are still plagued with many errors
- Degree Audit records can't be managed on an individual level, such as a one-time substitution
- CAMS can't manage programs having different rules, such as, a program that tracks student's program GPA and another program that tracks student's overall GPA. This results in every student record being individually evaluated for program requirements completion in order to graduate the student. This includes hundreds of student records every graduation
- Transcript uploads are very manual and from three separate sources (CAMS system, legacy database, and paper copies), depending on the year of the student's attendance
- Data entry from multiple CAMS screens and customizations make it difficult to troubleshoot which entry point contains errant student coding. A lot of time is spent tracking down codes
- Navigating multiple CAMS screens also extends the time needed to process an application

- High school students become SWTC students when they take driver's education through SWTC. They become prospects when they attend an event or send an inquiry to attend SWTC as an undergraduate student. Students may have many prospect records that can only be merged manually and two at a time
- CAMS appears to be weak in managing holds. Behavioral holds are managed manually
- Weak integration with testing, tutoring and library services, some placement test results are maintained on paper
- Overreliance on SmartSheets (disability records, budget)
- Co-curricular activities tracked outside of CAMS
- Easy to accidentally double batch in Integration Manager
- Financial reports in Dynamics require a consultant to create them
- 1098T is inaccurate, refund schedule is awful, a lot of time is spent recalculating drops for students
- Budget reports in Dynamics are "horrible," reporting and budget process are not good
- No guarantee of data integrity
- Need a single system of record
- Data Governance must become cultural – data owners and stewards (e.g. the Registrar owning the student record)
- Comprehensive Data Dictionary ("Cookbook") needed
- Report/Query validation process needed for decision-making
- CAMS is using old hardware and browser technology that is reaching the end of life
- Difficult to access common information, like SSN, in CAMS
- Federal reporting may require pulling data from five different areas in CAMS to include all the proper elements
- Data fields have been reallocated to track information other than intended use, such as using a field for tracking a second degree to track whether or not the student is employed
- Developing reports requires technical intervention from IT staff. Users can't pull their own data, IT has to pull it for them
- Creating and tracking student cohorts is difficult
- IPEDS transfer in and transfer out is difficult to track
- SWTC tracks graduation date instead of conferral date. Federal reporting requires the date of conferral
- Client reporting for Wisconsin State Report (WSR) requires CAMS screen and SWTC written script. It cannot be delivered through CAMS alone
- CAMS was designed to support registration of current students, not to prospect non-credit students. The non-credit (continuing education) portal was developed by SWTC and requires its own student name and password separate from the CAMS student portal. CE portal was developed to support registration of driver's education students and does not deliver the best first impression of SWTC
- CAMS student portal is not designed as a mobile application

## BOLSTERING ITS

A team of six FTEs covering one-hundred-eighty services (as noted in Appendix A) is not likely to have the capacity to embark upon an ERP (re-)implementation without first organizing significant internal and external resources to aid that endeavor. As previously noted, Wisconsin technical colleges of similar size have an average of fourteen FTEs covering a similar workload. We recommend that ITS define and assess its current service portfolio by creating a service catalog and working with executive leadership to determine what services must be covered, and which services could be set aside for the duration of the project or beyond.

The Information Technology Infrastructure Library (ITIL) can provide a framework for defining these services. A Service Catalog will help the campus community understand the services that ITS provides, and help leadership better determine what resources will be needed as demand increases for technology-related services.

Additionally, the institution should adopt an IT governance structure that acts as a prioritization mechanism for the portfolio of institutional technology projects. This structure does not need to be complex or time-consuming. It is sufficient to create a single committee that meets quarterly to review existing projects and make recommendations to President Wood and his cabinet.

## Recommendations

CampusWorks' analysis indicates that CAMS Enterprise – as it is currently implemented – will not support the institution's desired capabilities. Modification of the existing CAMS implementation will not suffice. Our recommendation is that SWTC goes through the process of selecting a new ERP system. The implementation of a new system should include conducting a reimagine and redesign process to identify and map all processes with the focus on the student experience. The mapped processes will help inform the creation of an RFP and will also be an integral part of the new configuration.

To ensure that SWTC implements a clean, trusted system of record, the College must begin with the end in mind. It is imperative that all stakeholders invest their time in defining:

1. The desired Student Experience from a prospective student (initial awareness of SWTC) through employment and beyond (a lifelong connection to SWTC).
2. Reimagined and redesigned process through the exercise of drafting optimal process flow for operations affecting students, employees, the College's financial and physical plant operations, alumni, benefactors and data standards.

Once the College has defined its desired state through process redesign, it will be in a strong position to continue the ERP selection process. A cross-functional team should be put together as an ERP Steering and Selection Committee. Faculty and staff with functional responsibilities will have a full understanding of their own operations and their interconnection with other departments' functions and processes. This committee can position the College community to define the requirements of their system, objectively evaluate the vendor offerings based on those requirements and recommend the system that best addresses the College's needs.

While the College is working to define its desired process flow, leadership will have time to assess the capacity of the organization to embrace significant change. Capability to manage a vendor, the need for effective project and change management, staffing to handle organizational tasks, project-related communications, and back-filling day-to-day tasks for the duration of the effort should all be considered.

Independent of implementing an ERP system, there are two other priorities that should be addressed. First priority must be given to ensuring the College's ability to maintain operations. With a handful of staff covering so many technology-related services, we recommend that all mission-critical services be identified and that the restoration of those services be fully tested to assure all stakeholders that operations can be restored within an acceptable timeframe.

Second priority should be given to a process that will lead to a trusted system of record by continuing the effort to define all data elements, to define all calculated facts/figures used in dashboards, reports, and for decision-making, and to continue cleaning up data where exceptions can be identified.

As institutional readiness for these efforts is evaluated, College leadership will determine if a strategic partner will help realize the return on that investment and ensure the continued success of SWTC.

## RECOMMENDATION ROADMAP

## Appendix A – Services Covered by ITS at SWTC

Management & Administration	Covered by IT	Covered by?
Alignment of IT with Business Objectives	ITS	
Attending to Presidents and Senior Executives	ITS	
Business Continuity & Disaster Recovery Planning	ITS	
Business Process Reengineering	ITS	
Business Solutions Consulting	ITS\Charger Enterprises	
Change Management	ITS	
Formal Organizational Communications	ITS	
Create & Manage both OpEx & CapEx Budgets	ITS

**Amendment # 1 to the  
Information Technology Services  
Contract**

Prepared for

**Southwest Wisconsin Technical College**

March 15, 2019

## MANAGEMENT CONSULTING SERVICES AGREEMENT

This Amendment to the Information Technology Services ("Agreement") dated January 8, 2019 is entered into between Southwest Wisconsin Technical College ("Client"), having its principal address at 1800 Bronson Blvd, Fennimore, WI 53809, and CampusWorks Inc., a Delaware corporation, having its principal address at 1767 Lakewood Ranch Blvd, #305 Bradenton, FL 34211-4906 as of and effective on March 15, 2019 ("Effective Date").

### RECITALS

- A. **WHEREAS**, the Client and CampusWorks entered into an Agreement pursuant to which CampusWorks is providing certain Information Technology Services;
- B. **WHEREAS**, the Client desires an expansion of these services;
- C. **WHEREAS**, CampusWorks has the skills and expertise and wishes to continue to provide the services in accordance with the terms and conditions contained herein; and

### AGREEMENT

NOW, THEREFORE, in consideration of the payments herein agreed to be made and the covenants and agreements herein contained, and for other good and valuable consideration, the receipt and sufficiency of all of which are hereby acknowledged, the parties hereto, intending to be legally bound, hereby agree as follows:

- 1. All terms and conditions of the Agreement shall remain in effect, with the exception of the following revisions of the Agreement.
- 2. Paragraph 1, Services, shall be extended to include the attached Scope of Work, Exhibit A, incorporated herein.
- 3. Paragraph 2, Cost for Services, shall be extended to include the attached Cost and Payment Schedule, Exhibit B, incorporated herein.
- 4. Paragraph 3.1, Term, shall be extended for the term of \_\_\_\_\_, 2019 – \_\_\_\_\_, 20\_\_.

IN WITNESS WHEREOF, the parties hereto have caused the execution of this Agreement as of the Effective Date.

Southwest Wisconsin Technical College

CampusWorks, Inc.

**Exhibit A: Scope of Work**

**Business process redesign project based on the desired future state of College processes; focus on enhancing the staff and student experience.**

CampusWorks will conduct a Process Reimagine and Redesign of all staff and student processes pertaining to the ERP system. The redesign will focus on a future state of these processes to create a framework for the implementation of the new system. The future maps will be used to solicit and select the new ERP solution. The CampusWorks Process Reimagine and Redesign team will work collaboratively with College leadership and staff, focused on the constituent experiences, to redesign full lifecycle processes and procedures. This business process redesign project is an integral part of the ERP implementation process of a new system. When completed in conjunction with the scenario-driven RFP development effort, the software selected will be more adaptive to the modernized business processes, thus making the implementation process more streamlined and efficient.

**Process Reimagine and Redesign (PRR) Methodology**

The following table provides an overview of CampusWorks’ PRR methodology from Kickoff through Presentation of Findings.

Activity	Description	Timing Onsite/ Remote
<b>Project Kickoff</b>	<p>Before engaging in the analysis of the selected processes, CampusWorks will conduct a Kick-off meeting with the project team and the President's Cabinet. The CampusWorks Project Lead will provide a brief presentation of the project scope and CampusWorks' methodology, introduce the project team, and review the project schedule. This meeting will provide an opportunity for CampusWorks and Southwest Tech to review and finalize the ERP selection approach and timeline.</p> <p>CampusWorks will provide project management throughout this project and will provide weekly updates to Operations Council.</p>	Onsite
<b>Process Reimagine and Redesign (PRR) Overview</b>	<p><u>Process Reimagine and Redesign</u></p> <p>Process Reimagine and Redesign (PRR) workshop, lays the groundwork for how process redesign will be conducted and ensures each participant, regardless of their previous training, can fully engage in the CampusWorks PRR.</p> <p>CampusWorks will provide leadership, consulting and facilitation in a comprehensive review of the processes in the selected functional areas.</p> <p>Sample processes include (but not limited to):</p> <p><u>Recruiting and Admissions</u></p> <ul style="list-style-type: none"> <li>• Recruiting high school students and associated data management</li> <li>• Recruiting non-traditional students and associated data management</li> <li>• Communication planning</li> <li>• Associated self-service processes</li> <li>• Recruitment activities, information captured and follow up processes</li> <li>• Prospect tracking and recruitment activity tracking</li> <li>• Processing requests for information</li> <li>• Communications by all means to prospects</li> <li>• Application processes, communications, and information management</li> <li>• Placement testing and aligning student for success</li> <li>• Processing and reconciling duplicate student IDs</li> <li>• Management of information across locations</li> <li>• Reporting</li> </ul>	For each functional area, two CampusWorks consultants will be on site for an initial four-day visit consisting of facilitated reviews, interviews, and analysis.

<p>Process Reimagine and Redesign (PRR) Overview</p>	<p><u>Financial Aid and Student Accounts</u></p> <ul style="list-style-type: none"> <li>• Overall financial aid process and systems used</li> <li>• Overall student accounts process and systems used</li> <li>• Student billing, receivable tracking, and payment processes</li> <li>• Collections processing and communications</li> <li>• Manual versus automated processes</li> <li>• Student self-service and communication</li> <li>• Managing student information updates and changes</li> <li>• Reporting</li> </ul> <p><u>Advising, Degree Audit, and Student Planning</u></p> <ul style="list-style-type: none"> <li>• Overall advising and academic planning processes and systems used for all students (undergraduate and graduate)</li> <li>• Initial orientation and ongoing advising activities</li> <li>• Transfer credit evaluation and processing</li> <li>• Support services to assist students throughout the processes</li> <li>• Disability services processes</li> <li>• Integration with financial aid and overall student experience</li> <li>• Academic alerts and processes</li> <li>• Tracking and sharing advising information</li> <li>• Student and advisor use, including student self-service</li> <li>• Managing student information updates and changes</li> <li>• Reporting</li> </ul> <p><u>Academic Scheduling and Planning</u></p> <ul style="list-style-type: none"> <li>• Schedule development timeline</li> <li>• Course offerings and setup, including billing</li> <li>• Faculty assignments</li> <li>• Facility and room scheduling</li> <li>• Development of the fall, spring, and summer academic schedules</li> <li>• Changes and adjustments to schedules</li> <li>• Publishing and communicating information</li> <li>• Ongoing room reservation processes</li> <li>• Managing schedule information updates and changes</li> <li>• Reporting</li> </ul> <p><u>Registration and Curriculum Management</u></p> <ul style="list-style-type: none"> <li>• Registration processes and student requirements for all student populations <ul style="list-style-type: none"> <li>◦ Pre and co-requisite processing</li> <li>◦ Test scores and non-course equivalencies</li> <li>◦ Priority, block, and waitlist registration processes</li> <li>◦ Registration holds, restrictions, approvals, and overrides</li> <li>◦ Add, Drop and Withdrawal processes</li> <li>◦ Canceled classes</li> <li>◦ Grading processes</li> <li>◦ Student course evaluations</li> </ul> </li> <li>• Transcript request process and unofficial transcripts, for credit and non-credit</li> </ul>	
--	---	--

	<ul style="list-style-type: none"> <li>• Graduation application processes and communications and related processing</li> <li>• Certificate and degree processing</li> <li>• Support Services to assist students throughout the processes</li> <li>• Processing and reconciling duplicate student IDs</li> <li>• Managing student information updates and changes</li> <li>▪ Reporting</li> </ul> <p><u>Continuing Education and Workforce Development</u></p> <ul style="list-style-type: none"> <li>• Recruiting, admitting and registration processes</li> <li>• Billing and payment processes</li> <li>• Sponsored billing processes</li> <li>• Collections processing and communications</li> <li>• Scheduling courses, instructors, and rooms</li> <li>• Managing student and sponsor information updates and changes</li> <li>▪ Reporting</li> <li>• Managing e-commerce payments and refunds</li> <li>• Collections processing and communications</li> <li>• Managing student information updates and changes</li> <li>• Reporting</li> </ul> <p><u>Advancement and Alumni Relations</u></p> <ul style="list-style-type: none"> <li>• Overall advancement and alumni process and systems used</li> <li>• Communications internally and externally</li> <li>▪ Integration with student system and financial aid</li> <li>• Managing donor information updates and changes</li> <li>• Managing alumni information updates and changes</li> <li>• Reporting</li> </ul> <p><u>Finance</u></p> <ul style="list-style-type: none"> <li>• General Ledger</li> <li>▪ Accounts Payable</li> <li>• Accounts Receivable</li> <li>▪ Billing</li> <li>• Cash Management</li> <li>▪ Grants/Project Management</li> <li>• Purchasing</li> <li>• Travel Expenses</li> <li>• Asset Management</li> <li>• Compliance and Reporting</li> </ul> <p><u>Human Resources</u></p> <ul style="list-style-type: none"> <li>▪ Recruitment</li> <li>• Onboarding</li> <li>• Position Budgeting</li> <li>• Benefit Administration</li> <li>• Time and Labor</li> <li>• Payroll Administration</li> <li>• Performance Management</li> <li>• Absence Management</li> </ul>	
--	--	--

	<ul style="list-style-type: none"> <li>• Succession Planning</li> <li>• Compliance and Reporting</li> <li>• Employee Communication</li> <li>• Employee Transition</li> </ul> <p><u>Data Standards</u></p> <ul style="list-style-type: none"> <li>• Standards for managing common data including personal data, duplicate ID, validation codes, automation, and standards across the student and employee life cycles, documented standards, and process to ensure standards are aligned.</li> </ul>	
<b>Discovery: Current State and Challenges</b>	<ul style="list-style-type: none"> <li>• Gain an understanding of current student service levels, organizational structures, processes, and effective use of technology</li> <li>• Determine baseline metrics to compare to best practices and benchmarks</li> <li>• Involve key individuals from departments that cover the selected functional areas to get a complete view of current challenges</li> <li>• Conduct onsite interviews/ focus groups with key staff and decision-makers, including students, if available</li> <li>• Where appropriate, CampusWorks team will shadow operational activities to evaluate processes, procedures, documentation, staff training, the general efficiency of operations, student service levels, and interaction of the staff with students and staff from other areas of the College</li> <li>• Review documentation (forms, training documentation, communication plans)</li> </ul>	
<b>The Future State</b>	<ul style="list-style-type: none"> <li>• This facilitated session brings together cross-functional teams and leadership to create and document the institution's optimal "future state" processes</li> <li>• CampusWorks' expert analysis will generate discussion and collaboration about immediate, short-term, and long-term improvement opportunities</li> </ul>	
<b>Measured Success</b>	The facilitated, cross-functional sessions will include key members of the institution to identify existing measurements and establish the goals for measuring the success of the prioritized recommendations from this effort. The results of this workshop will provide Southwest Tech the ability to measure the impact of the changes from these efforts.	
<b>Review: Organizational Readiness</b>	<p>Through the facilitated sessions and individual meetings with staff and leadership, CampusWorks will assess the effectiveness of the current organizational design, staffing allocation, and workloads in meeting the institution's strategic needs and addressing the transformational efforts identified in this project.</p> <p>The scope of work for the Readiness Review will include the following:</p> <ul style="list-style-type: none"> <li>• Review the efficacy of the current organizational design, staffing allocation, and workloads to align organizational structure with demands <ul style="list-style-type: none"> <li>○ Is each area adequately resourced?</li> <li>○ Are the right people doing the right tasks?</li> <li>○ Where is additional staffing essential?</li> </ul> </li> </ul>	

	<ul style="list-style-type: none"> <li>○ Where can operational efficiency and effectiveness be increased and costs reduced?</li> <li>○ Are there opportunities to redirect funds/resources?</li> <li>○ Where can staffing be optimized with new and additional training?</li> <li>• Evaluation of the productivity, accuracy, and effectiveness of the selected functional areas</li> <li>• Review the current structure of the selected functional areas, including staff size and job classifications; system resources; along with the department's overall ability to meet the needs of the College</li> <li>• Review of the current positions and hierarchy</li> </ul>	
<b>First Look Presentation</b>	In the "First Look" presentation to the institution's management team at the close of the onsite visit, the CampusWorks team shares the preliminary PRR findings, provides a framework for addressing those findings, and invites additional input from the leadership team.	
<b>Refine and Develop the Future State</b>	Armed with a Future State that is developed with input from an integrated team of stakeholders, CampusWorks consultants will further refine, develop and fully visualize with Visio process maps, the cross functional processes of the selected functional areas of operation. These results will provide your institution with the information necessary to optimize your systems, so they support your strategic objectives.	Remote
<b>Presentation of Findings</b>	After a full analysis of the collected data and the leadership's feedback, CampusWorks returns to campus to present the findings, recommendations, future state and organizational readiness to the appropriate leadership committee and functional teams.	Return visit by 2 CampusWorks consultants
<b>Deliverables:</b>  <b>Actionable, Consumable Documentation</b>	<p>A final report will be developed and presented and will be inclusive of the following.</p> <ul style="list-style-type: none"> <li>• Executive summary of the findings and recommendations for efficiency improvements and/or reduction of operational costs <ul style="list-style-type: none"> <li>○ Recommendations may be made related to the process, use of existing technology, as well as policies and procedures beyond the student lifecycle process that may be influencing the quality of services provided to students.</li> </ul> </li> <li>• Roadmap (step-by-step implementation plan) and prioritized list for required process improvements to improve departmental efficiency and student experience <ul style="list-style-type: none"> <li>○ Roadmap for transforming policies, processes, technology, and people</li> <li>○ Key measurements in each area</li> <li>○ Recommendations for campaign/communication plans to align with the revised processes</li> <li>○ Specific recommendations for how to improve the use of technology and use/eliminate third-party solutions</li> </ul> </li> <li>• Future state process maps with associated narratives describing the future state processes</li> <li>• Organizational Readiness Assessment Plan <ul style="list-style-type: none"> <li>○ An optimized organizational structure is provided for each functional area evaluated in the business process reviews to overcome organizational silos and streamline processes</li> <li>○ Targeted training plan to support new process adoption and recommendations for staff training focus areas</li> </ul> </li> </ul>	

	<ul style="list-style-type: none"> <li>○ A calendar outlining the business process redesign training and mapping sessions</li> <li>○ A report of best practice, future process maps documented for each of the above-defined process areas; any exceptions for compliance purposes are documented</li> </ul> <p><u>Knowledge Transfer</u></p> <p>Throughout the engagement, CampusWorks will conduct PRR consulting sessions designed to improve the processes and to begin to create a culture in which PRR is a standard means for ascertaining the cause of problems that impact services, efficiency, and effectiveness. Ideally, the staff will add PRR to their standard operational activities. The staff that takes to the PRR methodology will be developed as leaders for the review of challenges and ongoing continuous improvement moving forward. CampusWorks' team of experienced subject-matter professionals and skilled PRR facilitators help your staff uncover the improvement opportunities within your current processes in a way that unleashes their creativity and empowers them to develop lasting changes that will improve institutional efficiency and effectiveness.</p> <p>The integration and consistent use of PRR beyond this effort will result in human and financial resource containment and savings, along with increased efficiencies and enhanced services. A culture of continuous improvement will also diminish instances of finger pointing, foster a deeper understanding and appreciation of various roles in the organization, and will improve project completion times throughout the organization.</p>	
--	---	--

#### Create a Request for Proposal (RFP) for an ERP system that meets the needs of the College

CampusWorks' approach permits a 360-degree view of the ERP landscape from the industry, technology, and constituent perspectives. It will result in the most informed recommendation possible. CampusWorks has developed the following approach to address the scope of work outlined in the RFP. This approach has been proven effective at several recent ERP selection projects in higher education. The CampusWorks methodology is summarized in the following table.

Activity	Description	Effort
<b>Draft RFP</b>	Develop the draft RFP for a new ERP system including: <ul style="list-style-type: none"> <li>• List of the functional requirements.</li> <li>• Key scenarios by functional area to identify how well the vendor solutions meet the organizational needs.</li> </ul>	Remote
<b>Finalize RFP</b>	CampusWorks will return to the College to meet with the Steering Team to vet and finalize the	Two consultants onsite for one day

10

	draft RFP. The RFP submission deadline and schedule will also be finalized at this meeting.	
<b>Deliver Final Document</b>	Deliver final RFP, incorporating input and direction from the Steering Team.	Remote

**Coordinate all finalist demos and assist the College with the selection of the ERP solution that best meets the needs of the College.**

Activity	Description	Effort
<b>RFP Distribution and Management</b>	<p>CampusWorks will:</p> <ul style="list-style-type: none"> <li>• Coordinate with Southwest Tech procurement for releasing RFP.</li> <li>• Support bidder conferences and conduct appropriate pre-bid meetings.</li> <li>• CampusWorks can accept the proposals from vendors directly or can assist the Southwest Tech procurement office in the management of the RFP process.</li> <li>• Assist the procurement office in responding to vendor questions during the Q and A period.</li> </ul>	
<b>Proposal Evaluation and Identification of Presenting Vendors</b>	<p>CampusWorks will:</p> <ul style="list-style-type: none"> <li>• Develop the scoring criteria for the RFP and work with the Steering Team to develop the selection criteria.</li> <li>• Prepare overview and score the ERP proposals.</li> <li>• Develop the agenda and facilitate the discussion with the Steering Team to identify semi-finalists to conduct onsite demonstrations.</li> </ul>	
<b>Prepare Vendors and the Steering Team for Effective Evaluation Process</b>	<p>CampusWorks will:</p> <ul style="list-style-type: none"> <li>• Conduct Steering Team orientation to the evaluation and selection process, including a review of committee responsibilities and general questions about ERP solutions and the selection process.</li> <li>• Serve as primary contact for vendors to address their questions, prepare them for demonstrations, gather additional information requested by the Team, follow up on items of concern, and gather second and third rounds of pricing.</li> </ul>	

<b>Evaluation</b>	<p>CampusWorks will:</p> <ul style="list-style-type: none"> <li>• Develop evaluation tools including surveys, pricing worksheets, reference scripts.</li> <li>• Coordinate and attend onsite demonstrations of the vendors' products and serve as a resource to Southwest Tech throughout the selection process and in particular during the onsite meetings. <ul style="list-style-type: none"> <li>◦ The assumption that a maximum of three ERP vendors will be selected for two-day demos</li> </ul> </li> <li>• Demonstration agenda prepared by CampusWorks and approved by the Steering Team.</li> <li>• Develop evaluation and feedback methods for all participants in the onsite demonstrations.</li> <li>• Review pricing with vendors and request improved offering based on targeted needs resulting from demonstrations.</li> <li>• Pricing may go through multiple rounds.</li> <li>• CampusWorks will document vendor-to-vendor comparisons as well as round-to-round comparisons.</li> <li>• Consolidate and summarize evaluation data, reference information, and pricing and prepare an "apples-to-apples" comparison of the solutions and investments.</li> <li>• Develop a total cost of ownership projection for the finalist vendors.</li> </ul>	
<b>Selection</b>	Present the comparison and recommendation to the Steering Team and facilitate discussions leading to a consensus direction and decision.	One consultant onsite for one day
<b>Contract Negotiations</b>	<p>Assist with review of contracts and vendor negotiations (up to 20 hours of negotiations included in the fixed price).</p> <p>Typically, CampusWorks engagement in contract review and negotiation results in hundreds of thousands of dollars in savings.</p>	

#### **Project Management Services for ERP implementation (Optional)**

CampusWorks' philosophy is to build strong professional and personal partnerships with the internal service departments at our client sites. We inculcate a sense of professional pride and accountability in the work effort on the part of all members. Our goal is for staff and consultants alike to realize a sense of ownership for delivering results as an interdependent, highly functioning team: each member of the team recognized as an indispensable, valued, and trusted resource.

To accomplish this philosophy, CampusWorks provides proven leaders with decades of experience in managing large and complex assignments. CampusWorks project managers have the experience to coach, motivate and empower staff, while showing extremely high levels of empathy. CampusWorks understands the amount of work required during ERP implementations and stresses the importance of work/life balance.

We do not believe in the individual hero sacrificing their quality of life to get the job done. Instead, CampusWorks focuses on building trust among team members, sharing knowledge, providing support and doing everything possible to make the home team capable of standing alone when a project is completed. The process of completing the project will provide the opportunity for professional growth and, typically, new leadership emerges from the ranks.

The keys to successful implementation are a partnership, proven leadership, trust, professional project management and the efficient allocation of resources. We will guide the College to bring together the right people, at the right time, and facilitate discussions and decision making so critical to institutional post-implementation projects.

Our project manager will deliver a successful outcome by –

- Leading the day-to-day management, planning, and tracking of all phases of design, implementation, and planning for this project through the execution and delivery of the ERP system for Southwest Tech, concluding with project transition of end-user, technical support resources, and project close
- Communicating the plan, roles, constraints, milestones, and critical path to all team members and project stakeholders
- Applying standard project management and delivery methodology and project tracking standards to build effective plans and deliver quality solutions
- Leading project team status meetings to ensure that project milestones are met, dependencies are tracked, and issues and next steps are proactively identified
- Providing management and Southwest Tech leadership with a regular summary of the project and outstanding deliverables statuses, especially with regards to issues affecting the timeline
- Prioritizing work for the project team and effectively triaging project team responses when capacity is a challenge
- Facilitating discussions with appropriate leadership and stakeholders to negotiate key decisions related to the project constraints (time, cost, scope) while maintaining the overall delivery timeline
- Ensuring that the project is fully documented (e.g., Standard Operating Procedures, business rules and definitions, and so on)
- Managing all project cross-functional resources, including the vendor team, and ensuring proper knowledge transfer
- Driving the project and implementing the specific Southwest Tech system that supports appropriate applications for the development, administration, documentation, tracking, reporting, and delivery of educational technology courses or training programs
- Working with internal stakeholders and other vendors/consultants to help establish a project plan for a successful implementation

- Being responsible and accountable for all aspects of the delivery of the ERP solution
- Keeping track of all project tasks, subtasks, resource assignments, dependencies, and due dates
- Ensuring that the Project Team completes the project
- Developing the project plan with the team
- Managing the team's performance of project tasks
- Securing acceptance and approval of deliverables from the Project Sponsor and Stakeholders
- Providing communication, including status reporting, risk management, and escalation of issues that cannot be resolved by the team
- Ensuring the project is delivered within budget, on schedule, and within scope
- Creating the detailed work plan which identifies and sequences the activities needed to complete the project

CampusWorks' Project Management services have been designed to offer a breadth of program advisory services to give confidence to clients that the vision, strategy, and tactical elements of such a significant initiative are being addressed and monitored.

Following is a summary of the critical components that would be part of our project leadership for Southwest Tech.

1. Complete Readiness Tasks to Implement the New Administrative System

The College's IT and administrative staff will need to achieve readiness to move forward with the new administrative system implementation project. CampusWorks anticipates leading the implementation effort for the College through the CampusWorks project manager. The successful project would include participation by the IT and functional staff in the implementation project activities, including constructing a reporting inventory, performing legacy system data conversion mapping, participating in web development, and strengthening information security through identity management.

2. Develop and Manage a Comprehensive Project Plan

CampusWorks has vast experience in developing and managing a plan for deploying administrative systems on time and within the predetermined scope and budget levels. Development of a comprehensive project plan is essential to the successful implementation of the new administrative system. This plan would contain the College's vision for an integrated ERP system. The plan will describe the leadership of the implementation project, the project steering committee structure, duties, and responsibilities for decision-making, as well as its constituent membership. In successful implementations, it is the project steering committee that drives the project forward. The plan will describe the College stakeholders and their respective responsibilities for the project's successful outcome, various project sponsors and champions across the College, and the duties and responsibilities of each.

The project plan would include additional detail for each business area, including:

- Finance
- Human Capital and Payroll
- Financial Aid
- Student system including Recruitment, Admissions, Registration, Student Accounts, and online services
- Customer Resource Management
- Auxiliary software systems identified by the project team
- Data warehouse and institutional reporting
- Information security with identity management

The project plan will provide a go-live schedule with a rolling timeline of go-live cutover dates that are synchronized to the College's master schedule for classes and other events in the academic and administrative calendar that pertain to making operational the various specific functional capabilities of the new administrative system.

3. Establish Project Teams

CampusWorks' strategy is to establish implementation project teams for each of the functional service areas listed above. These teams will include stakeholders in each functional service area and will be staffed with appropriate subject area experts from the project implementation team and College staff. The members of the project implementation team would provide the necessary technical support to each functional team and coordinate their efforts both within the scope of each team effort and across the whole set of teams.

4. Test and Validate Business Processes

CampusWorks' project manager will coordinate in collaboration with IT and the functional teams, the efforts to test and validate the critical processes throughout the College such as supporting student billing, the award of financial aid, and the refunding and disbursement of funds to students. Testing of the many combinations of cases needs to be complete and exhaustive, ensuring that appropriate scenarios are correctly processed. Usability testing with focus groups of users (especially students) reduces institutional risk and is a CampusWorks best practice.

5. Develop and Validate the Administrative System Environment

CampusWorks will coordinate the development and validation of the new administrative system environment collaboratively with the College and ERP vendors involved. Testing includes adequate capacity, performance, security, business continuity, and management policies and procedures. Processing validation is essential in assuring users and the College staff that the new administrative system is processing data as expected by the College.

6. Develop a Governance Model

CampusWorks will develop a recommended governance structure that will guide the centralized decision making for the project, guide the project and resource prioritization, facilitate shared data standards and ensure that all management members are engaged in the process. This structure will leverage current College governance structures, as appropriate, and will include the creation of appropriate management-wide committees and teams.

7. Develop Change Management Strategies

CampusWorks will assist the College with the development of administrative system tests, development/production environments, and effective change management procedures. The change management methodology will ensure orderly and documented business processes for changes to the College production systems.

8. Data Conversion

CampusWorks' specialists will assist with the strategy, planning, timing, and level of historical information moved for the data converted from legacy systems to the new administrative system. CampusWorks PM will coordinate with IT and the Functional teams the data conversion efforts, including timing the various data extracts and integrations throughout the project efforts.

9. Develop an Institutional Reporting Strategy

Data reporting is an essential information technology service, and it will be one of the major indicators of the success of the administrative system implementation project. CampusWorks

will assist and support the development of an effective report inventory to ensure ongoing continuity of services during the new administrative system implementation. CampusWorks will assist the College in planning for the development of an institutional data warehouse. These efforts will dovetail with work toward a cross-functional data stewardship committee who can help with both data element definitions and management, which will all lead to consistency across all the functions.

10. Training and Knowledge Transfer

The ERP vendor(s) selected, or their partners will offer training on the new administrative system for all levels of institutional staff. CampusWorks will provide a well-defined structure/ approach for training the College's staff using its proven and effective knowledge transfer methodology. CampusWorks' functional experts bridge the gap between how the products work and how to effectively implement the products for a particular institution. CampusWorks will also provide the College with the structure and methodologies necessary for training functional users.

11. Develop a Support Model

CampusWorks can assist the College in the development of a best practices technology support model for the new administrative system. The support model will provide functional services units with assistance and support as problems develop. The support model also provides a systematic method for resolving problems together with a problem tracking system and a knowledge base of previously established solutions.

12. Information Security

CampusWorks can assist the College with a comprehensive information security assessment. Remediation requirements will be included as tasks in the tactical implementation plan. Information security will be included in the new administrative system implementation where the focus will be on the best practices of identity management.

14. Interface with Third-Party Products

The new administrative system will consist of a wide range of functionality, but the complexity of operating a higher education institution requires even more capabilities. Most institutions augment administrative systems with a series of third-party software products (e.g., imaging, scheduling, and credit card payment). CampusWorks has developed efficient and effective best practices for managing the integration of third-party software to administrative systems and the PM for this effort will guide the College on the recommended best approach to the fullest integration of the ERP environment

15. Develop Life Cycle Support for the New Administrative System

Success with administrative systems means that the system must be maintained throughout its many years of future service to the College. CampusWorks has developed best practices for life-cycle support of the many solution components in today's modern administrative systems.

A primary goal of CampusWorks, if selected as a partner, is to address issues, challenges, and trends that will affect the College. By providing management of the whole ERP selection, acquisition, and implementation processes, ultimately the College will have technology solutions that will enable information to be available when and where it is needed, on a cost-effective basis.

## Exhibit B – Cost and Payment Schedule

<p>Project manage and conduct a business process redesign project, develop a scenario-based RFP, and coordinate demos and selection processes.</p> <p>Includes business process redesign for the following areas:</p> <ul style="list-style-type: none"> <li>• All Enrollment Management areas detailed in the proposal</li> <li>• All Finance areas detailed in the proposal</li> <li>• All Human Resources and Payroll areas detailed in the proposal</li> <li>• Data Standards</li> </ul>	\$325,000
Create a Request for Proposal (RFP) for an ERP system	
Coordinate all finalist demos and assist the College with the selection of the ERP solution that best meets the needs of the College, inclusive of software vendor contract assistance if requested by the College.	
<p><b>Optional:</b> Project Management Services for ERP implementation for 18 months. (If the full-time PM option is selected now, consideration will be given for a cost reduction).</p>	<p>\$32,055/month for a minimum of 18 months.</p> <p>\$16,035/month for a half-time PM option for a minimum of 18 months.</p>
<p><b>Travel Expenses:</b> Expenses for these projects (estimated at 18% of the services cost) will be billed as incurred.</p>	TBD

### ***B. Platteville Outreach Site Lease***

Included below is a six-month lease expiring December 31, 2019, for the current location of the Platteville Outreach Site at the OE Gray Building, 110 W. Adams Street, Platteville, WI 53818. This lease is for two rooms at \$350.00 per month for each of the rooms. Caleb White will be present at the meeting to discuss the lease.

**Recommendation:** Approve the six-month lease with Platteville School District to lease two classrooms at 110 W. Adams Street, Platteville, WI, for \$700.00 per month.

**Rental Agreement**  
**Between the Platteville School District and Southwest Technical College**  
**July 1, 2019 - December 31, 2019**

This Memorandum of Understanding is between the Platteville School District and Southwest Wisconsin Technical College. It serves as a rental agreement to establish the terms and conditions by which the Platteville School District, hereinafter referred to as the District will rent space to Southwest Wisconsin Technical College, hereinafter referred to as the tenant at the OE Gray School Building. This agreement will begin July 1<sup>st</sup>, 2019 and end December 31<sup>st</sup>, 2019. The rent will be \$350 a month per rented room.

Under this rental agreement the following spaces will be provided for the tenant:

- Classroom 7 and 8.

Under this rental agreement it is understood that:

1. The District will provide general maintenance, heating, air conditioning and electricity and will provide for routine weekly cleaning of specific rooms. The tenant is expected to keep order on a daily basis of their rented spaces.
2. Occasional use of the gym when unoccupied will be permitted without additional rent. Special Events scheduled for the gym need to be scheduled in advance at normal gym rental rates.
3. The tenant must obtain permission from the district Business Administrator or Superintendent to use any other portion of the OE Gray facility.
4. The tenant's employees will be provided with building key cards and keys as necessary to access their rented rooms.
5. The tenant may not make structural alterations or additions to the premises without prior consent of the district Business Administrator or Superintendent.
6. The tenant may paint, erect, hang or place upon the interior or exterior of the building only such identification signs or other advertising displays as may be consented to by the District.
7. The tenant will provide furnishings for all their rental spaces.
8. The tenant will not sublet rented premises, or any part thereof, without prior consent of the District.
9. The District will provide networking equipment rental granting Wi-Fi and internet access to the continuous and daily use areas during its occupancy at \$25/month per room. This agreement covers maintenance/support of District equipment, but not support for the tenant's owned equipment.

10. The District will provide connections to the District's telephone network provided the tenant pays the monthly line service and any extra charges attributable to each line provided.
11. The tenant shall carry comprehensive public liability insurance on the leased portion of the premises with limits no less than \$1,000,000/\$5,000,000 bodily injury and \$250,000 property damage.
12. At the termination of this rental agreement, the tenant shall leave the rented premises in as good condition as at the beginning of the rental term - ordinary wear and tear and damage by the elements excluded; however, the tenant shall not be required to replace or repair any damage covered by the District's insurance.
13. This memorandum may be modified to address unanticipated circumstances by mutual agreement of the District and the tenant.
14. This agreement may be terminated without prejudice by either party with a 90-day written notice.
15. The tenant agrees to this rental agreement and related understandings and agrees to pay rent in the amount \$700.00 per month for six months (\$4,200 total) to the District in addition to the monthly cost of telephone service and networking equipment rental. Termination of this agreement will be allowed if the tenant's funding is terminated during the contract period. This agreement contains the option to renew for one year following the expiration of this term.

### ***C. Dodgeville Outreach Site Lease***

A lease amendment is included below for the Dodgeville Outreach Site, located at 316 W. Spring Street, Dodgeville, WI 53533. This lease amendment is a 12-month contract to rent the facility for \$1100.00 per month. Caleb White will be present at the meeting to discuss the lease.

**Recommendation:** Approve the 12-month lease with Capitol Dodgeville, LLC, to lease space at 316 W. Spring Street, Dodgeville, WI, for \$1,100.00 per month.

#### AMENDMENT

This Amendment (the "Amendment") is made this \_\_\_\_ day of April, 2019, by and between Capitol Dodgeville, LLC ("Landlord") and Southwest Wisconsin Technical College ("Tenant").

WHEREAS, Landlord's predecessors and Tenant entered into a Lease dated January 31, 2013 (the "Lease") and Lease Amendment May 8, 2018 (the "Amendment") for a portion of the premises located at 316 West Spring Street, Dodgeville, Wisconsin; and

WHEREAS, the parties desire to amend the Lease and Amendment.

NOW, THEREFORE, in consideration of the foregoing recitals and covenants and agreements hereinafter contained and other good and valuable consideration, the receipt and sufficiency of which are mutually acknowledged, Landlord and Tenant agree as follows:

1. The Term of the Lease and Amendment shall extend through June 30, 2020.
2. The rent shall continue to be One Thousand One Hundred Dollars (\$1,100.00) per month.
3. The Tenant acknowledges that the Landlord does not have possession of the security deposit of Two Thousand Two Hundred Dollars (\$2,200.00) paid by Tenant to the Landlord that executed the Lease with Tenant January 31, 2013 and Tenant acknowledges that Landlord is not responsible for such security deposit.
4. Except as expressly provided herein, all of the terms, covenants and provisions of the Lease shall remain in full force and effect.

IN WITNESS WHEREOF, the parties have executed this Amendment effective as of the date first written above.

## **Board Monitoring of College Effectiveness**

### **A. Foundation Quarterly Report**

Holly Clendenen, Executive Director of the Foundation and Real Estate Foundation, will present a quarterly Foundation report to the Board highlighting the activities and results of fundraising efforts and other initiatives. The FY19 Third Quarter report is available below.

### **Southwest Tech Foundation and SWTC Real Estate Foundation (REF) FY19 Third Quarter Report to District Board April 25, 2019**

- ***FY19 Fundraising Totals***
  - \$873,635 total gifts received (*FY19 goal is \$700,000*)
    - \$839,937 cash received (*FY19 goal is \$550,000*)
    - \$33,697 Gift In-Kind total
    - \$22,439 received from retirees
    - \$40,491 received from current employees, 161 employee donors (90% participation) including **107** ongoing payroll deductions. (*FY19 payroll deduction goal is 100*)
  - 3,946 total gifts (*FY18 total was 4,261*)
  - 1,051 total donors (*FY18 total was 939*)
- ***Gift Highlights – Thank you!***
  - \$525,000 from Pat and Jane Thiele for Jim and Grace Thiele Scholarship – STEP Program for Boscobel High School
  - \$4,500 from Joyce Czajkowski for Czajkowski IT Endowed Scholarship
  - \$4,500 from Dubuque Racing Association for Innovative and Alternative Learning-Recording and Teaching Studio
  - \$3,000 from United Fund of Iowa County for Charger Dream Fund
  - \$2,500 from Elise Lindeman for Medical Assistant Scholarship, Southwest Tech Scholarship for Dodgeville, and Ag Power PAS Club Fund

- **Program Services** – scholarships, awards, and project funds paid by Foundation

- **Endowment** – permanently restricted funds invested for long-term growth, 3% of earnings awarded annually for scholarships and other awards

- **Scholarships**
  - 486 applications received (*FY19 goal was 450*)
  - Estimating 65 new scholarships awards for 2019-20
- **Appeals**
  - Student Philanthropy fundraiser 'Batter Up, Fuel Up' in collaboration with Sheila Marten's Psych of Human Relations classes and Graphic Innovations Group (GIG) raised about \$850 for Gas Card Program
  - 'Cram the Cupboard' student philanthropy event promoted by same classes and group mentioned above raised carts and boxes full of items for the Charger Cupboard

- Spring phonathon ended April 17 and goal of \$45,000 pledged and received should be achieved. Primary ask was for support of Southwest Tech Community Scholarship Funds
- Working with Pete Hoffman to ask implement dealerships and other industry partners to support Josh Reimer Memorial Scholarship as part of Pete's retirement

- **Awards**

- Faculty and Staff Awards presented April 18
  - Wood Family Employee Excellence – Margie Billings, Connie Haberkorn, and Rex Smith
  - Nicholas' Servant-Leadership - Stephanie Brown
  - Innovation of the Year – Mike Steffel (top prize); Matthew Baute & Stephanie Brown and Jody Millin, Denise Janssen, Lori Needham & Haylee Freymiller (runners-up)
- Alumni, Retiree and Philanthropy Awards to be presented May 17 at Donor Appreciation Dinner
  - [Distinguished Alumni Award](#) – Debbie Johnson, Ritch Stevenson, and Scott Pauls
  - [Retiree Achievement Award](#) – Tom Sheehan and John Schindler
  - Philanthropy Award – Don and Susan Tuescher and Cummins Emissions Solutions

- **Events**

- [April 27 – Trapshooting Fundraiser, Muscoda Sportsman's Club](#)
- [May 1 – Welding Garden Art, Southwest Tech campus](#)
- [May 17 – Donor Appreciation and Alumni & Retiree Awards Program, Southwest Tech campus](#)
- [September 6 – Charger Golf Classic, Lancaster Country Club](#)

- **Real Estate Foundation**

- Stephanie Brown sent out leases on April 1 and as of April 16, 103 out of 140 leases filled for 2019-20.
- 85 migrant workers with signed contract for 4 weeks of housing this summer.
- Two 2-story duplex construction by Midwest Builders on track for completion in next 4-6 weeks
- Duplex built by carpentry program on track with completion target of August 1
- Dan Imhoff presented updated maintenance report to REF Board at April 24 board meeting
- Heath Ahnen helping finalize contract with third-party for REF-provided internet for all student housing apartments to be added as service within lease agreement

- **News Releases**

- [Southwest Tech Foundation awarded \\$3,000 from United Fund of Iowa County](#)

- [Southwest Tech Students Raise Funds to Support their Peers](#)
- [Southwest Tech alumna ascends to key healthcare role](#)
- [Alumna credits Southwest Tech for belief in paying it forward](#)
- [Southwest Tech alum earns Customer Service Employee of the Year at Wilderness Resort](#)
- [Barry puts community and financial resiliency first](#)
- [The Path to Compounding Courage](#)

### ***B. FY 2020 Budget Update***

Caleb White will present an update on the FY2020 budget. Included below is the current General Fund overview.

4/18/2019

Southwest Wisconsin Technical College  
General Fund  
2019-2020 Budgetary Development Status

	2017-18 <u>Actual</u>	2018-19 <u>Projected</u>	2018-19 <u>Budget</u>	2019-20 <u>Budget</u>	<u>Change</u>	
<b>REVENUES</b>						
Local Government	5,392,513	5,172,000	5,140,000	5,343,000	203,000

### ***C. Staffing Update***

Krista Weber, Chief Human Resources Officer, will provide an update on College staffing. A summary is available below.

### Staffing Update 2018-19 Fiscal Year

	Name	Title	Status and/or Additional Info	Effective Date	Funding Source &/or Estimated Wage Range/Hired Salary
1	Replacement - Dan Schildgen	Automotive Technician Instructor	Brian Waldner	7/31/2018	BS \$47,297-\$75,203 AS \$49,750 - \$79,102 MS \$52,202-\$83,000 Hired at \$59,000
2	Replacement - Steve McCauley	Electromechanical Technician Instructor	Jobert Bermudo	7/31/2018	BS \$47,297-\$75,203 AS \$49,750 - \$79,102 MS \$52,202-\$83,000 Hired at \$60,000
3	Replacement - Nancy Devlin	Bookstore Assistant - 2 positions, Part-time, LTE (ending 6/30/2019)	Lori Wiest & Jennifer Rice	6/25/2018	Hourly Band A13 \$16.42 - \$19.70 Lori- Hired at \$17.00; Jen- Hired at \$16.42
4	Replacement - Snehal Shirke	Communications Instructor Lead	Connor Zingarelli	1/3/2019	MS \$53,314-\$84,768 Hired at \$55,000
5	Replacement - Jeff Domink	Animal Science Instructor	Ryan Weigel	8/6/2018	BS \$47,297-\$75,203 AS \$49,750 - \$79,102 MS \$52,202-\$83,000 Hired at \$62,000
6	Replacement - Chyme Stimart	Student Services Records Specialist	Heather Day	8/6/2018	Hourly Band A13 \$16.42 - \$19.70 Hired at \$17.00

### Staffing Update 2018-19 Fiscal Year

	Name	Title	Status and/or Additional Info	Effective Date	Funding Source &/or Estimated Wage Range/Hired Salary
7	New Position	Automotive Mechanics Instructor - Part-Time	George Whiteaker	9/1/2018	BS \$47,297-\$75,203 AS \$49,750 - \$79,102 MS \$52,202-\$83,000 Hired at \$60,000 (base)
8	New Position	Public Relations Manager	Dennis Cooley	8/13/2018	Salary Band C44 \$53,671 - \$75,139 Hired at \$75,139
9	Replacement - Patricia Greenwood	Academic Success Coach - (75%, LTE)	Katie Snitker	7/1/2018	Houly Band B24 \$20.32 - \$26.4 Hired at \$25.32
10	Replacement - Brooke Mitchell	Health/Science Academic Success Coach - (75%, LTE)	Brian Molini	7/1/2018	Houly Band B24 \$20.32 - \$26.41 Hired at \$25.32
11	Replacement -Penny Demert-Neal	Associate Degree Nursing Instrucor	Maria Kindrai	12/3/2018	MS \$52,202-\$83,000 Hired at \$58,000
12	New Position	Disability Services Associates	Heather Swatek	9/11/2018	Salary Band C42 \$47,777-\$66,888 Hired at \$20.00/hour

### Staffing Update 2018-19 Fiscal Year

	Name	Title	Status and/or Additional Info	Effective Date	Funding Source &/or Estimated Wage Range/Hired Salary
13	Replacement -Pam Johnson-Loy	Administrative Support Assistant - Public Safety. Part-time-30 hr)	Ken Straka	9/24/2018	Hourly Band B21 \$16.79 - \$21.83 Hired at \$17.50/hour
14	New Position	Regional Engagement Coordinator - Richland Center Outreach	Criag Woodhouse	8/13/2018	Salary Band C43 \$50,394-\$70,552 Hired at \$60,500
15	New Position	Regional Engagement Coordinator - Darlington Outreach	Hold	8/1/2018	Salary Band C43 \$50,394-\$70,552
16	Replacement - Breanna Callahan	Student Services Admission Specialist	Sherri Seitz	8/13/2018	Hourly Band A13 \$16.42 - \$19.70 Hired at \$16.50
17	New Position	Safety Coordinator	Brian Kitchinger	9/15/2018	Salary Band C42 \$48,795-\$68,313 Hired at \$53,000
18	New Position	Help Desk Technology Support	Jamish Patel	9/20/2018	Hourly Band B23 \$19.36 - \$25.17 Hired at \$19.50/hour

### Staffing Update 2018-19 Fiscal Year

	Name	Title	Status and/or Additional Info	Effective Date	Funding Source &/or Estimated Wage Range/Hired Salary
19	Replacement - Prior position for Cora Halverson	Finacial Aid Asst/Accounting Bursar	Camille Chappell	10/8/2018	Hourly Band B22 \$18.26 - \$23.74 Hired at \$18.26
20	New Position	Electrical Power Distribution Instructor	Kyle McCorkle	3/18/2019	BS: \$48,304 - \$76,805 AS: \$50,810 - \$80,787 MS: \$53,314 - \$84,768 Hired at \$73,000
21	Replacement - Robin Lenz	Student Life Coordinator & Athletic Director	Robin Hamel	1/16/2019	Salary Band C42 \$48,795 - \$68,313 Hired at \$55,500
22	Replacements - 2 positions	Associate Degree Nursing Instructor	Interviews Scheduled	Spring 2019	MS \$53,314-\$84,768
23	Replacement -Dan Kliebenstein	Evening Custodian	Kendrick Henkel	1/3/2019	Hourly Band A12 \$15.61 - \$18.73 Hired at \$15.61
24	Replacement -Pete Hoffman	Ag Power & Equipment Tech Instructor	Justin Rounds	4/1/2019	BS: \$48,304 - \$76,805 AS: \$50,810 - \$80,787 MS: \$53,314 - \$84,768 Hired at \$57,000

### Staffing Update 2018-19 Fiscal Year

	Name	Title	Status and/or Additional Info	Effective Date	Funding Source &/or Estimated Wage Range/Hired Salary
25	Replacement - Ed Ruff	Farm Business & Production Management Instructor	Interviews Scheduled	4/15/2019	BS: \$48,304 - \$76,805 AS: \$50,810 - \$80,787 MS: \$53,314 - \$84,768
26	Replacement - Nancy Devlin	Bookstore Mechandising Coordinator	Posted	5/15/2019	Hourly Band B22 \$18.26 - \$23.74
27	Replacement - Jim Broihahn	Building Trades Carpentry Instrutor	Posted	7/1/2019	BS: \$48,304 - \$76,805 AS: \$50,810 - \$80,787 MS: \$53,314 - \$84,768

## Information and Correspondence

### **A. Enrollment Report**

The 2018-19 and 2019-20 Comparison FTE Reports and the Fall 2019 Application report are available below.
