- 7. Public hearings on the proposed budget will take place during the month of June.
- 8. Following the public hearings, the Board shall approve the budget by July 1.

CURRENT ENVIRONMENT

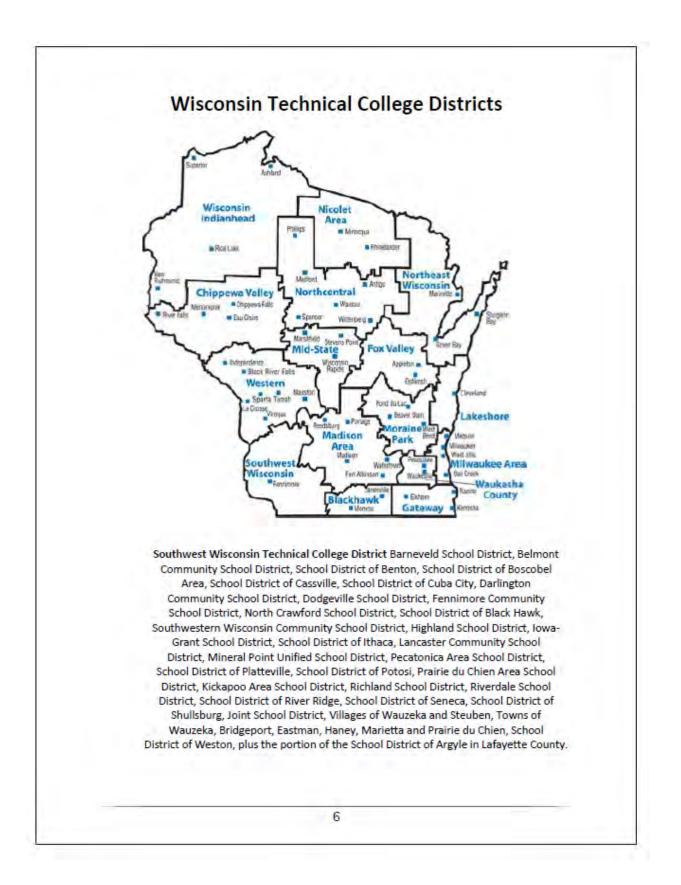

Southwest Wisconsin Technical College plans to finish 2022-23 at 1,300 full-time equivalent students (FTEs), a increase of approximately 45 FTEs relative to 2021-22. That mark will exceed the college's budget goal for the year of 1,250 FTEs. Over the fifteen-year period from 2007-08 through 2022-23 the college total FTEs have declined by approximately 18%. In the face of declining enrollment in the district's high schools, loss of significant partnership contracts, a prolonged period of near full employment in the region and rapidly changing and ultra-competitive higher education environment, the College's ability to pursue growth in alternative areas over the fifteen-year period in opposition to those challenges is a significant accomplishment in service to regional students and employers. The budget for 2023-24 has been built on a projection of 1,300 FTEs, relatively flat from the prior year.

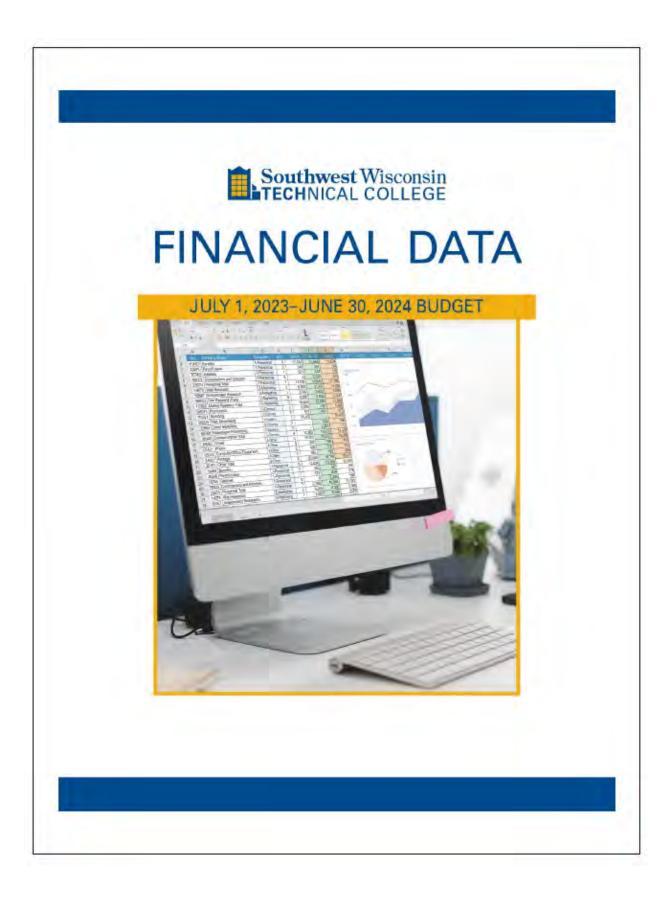

Budget Priorities / Strategic Projects for 2023-24 include the following:

- 1. Engage Students in High Quality Experiential Learning
 - Access to high-quality academic programming helps students succeed in the workforce. The Academic Plan focuses on emerging industries and revitalizing existing programs.
- 2. Strengthen a Culture of Caring and Success
 - a. At Southwest Tech we want every student to know we care about their success. We also want faculty, staff, and leadership to be representative of our district population and student body.
- 3. Enhance the College's Economic Impact
 - Using one-time funding sources, we will reduce our operating expenses through investments in renewable energies. We will create student learning opportunities through partnerships between academics and operations.

The operational budget (general and special revenue funds) for 2023-24 is projecting a slight decrease in revenue levels in comparison to 2022-23. This is based on generating 1,300 FTEs and including anticipated increases in general state funding, investment earnings and customized instruction contracting balanced by sunsetting grants and student fee reductions. The local tax levy is predicated on an estimated one percent valuation increase generating an operational mill rate of .4499 or \$0.45 per \$1,000 of property valuation. General Fund budgeted expenditures for 2023-24 reflect significant inflationary pressures. Wage adjustments for 200 full-time staff and approximately 300 part-time staff require approximately \$818,000 in additional budget. Additional estimated increases in heat, electricity, general utilities, supplies, advertising/printing accounts and maintenance items have also been accounted for. These increases coupled with costs of new initiatives including new positions required for expanded services and programming have been balanced with grant funding, efficiency gains, reorganization savings and other adjustments to create the budget presented.

Serving 1,300 FTEs in 2022-23 is a credit to the College's ability to balance priorities with limited resources, outside enrollment pressures and an ever-increasing drain on resources to meet compliance requirements. To sustain future growth in spite of decreasing high school graduation rates in the district, an increased focus has been placed on creating an increasingly positive environment/culture for both staff and students, enhancement of quality teaching and learning and offering unique and effective support services for students. Our challenge moving forward is how we garner the resources needed to meet the increased demand for technical college trained workers that are so vital to the health of our regional economy while navigating the uncertain and everchanging environment that has become a new normal for us all.

BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The governmental, expendable trust and agency funds, are accounted for on a modified accrual basis. Under the modified accrual basis of accounting, transactions are recorded in the following manner:

- Revenues are recognized when they become both measurable and available (susceptible to accrual). All
 revenues are considered susceptible to accrual except summer school tuition and fees that are recorded
 as deferred revenue. For debt service, property taxes levied to make principal and interest payments
 with due dates within the fiscal year are revenue. Any debt service property taxes levied to make
 principal and interest payments with due dates outside the fiscal year are deferred revenue.
- Expenditures are recognized on an encumbrance basis when the purchase commitment is made, except
 for interest and principal on general long-term obligation debt, which are recognized as expenditures
 when due. Expenditures for claims and judgments are recognized when it becomes probable that an
 asset has been impaired or a liability has been incurred.
- Expenditures for compensated absences, including vacation and sick leave, are recognized when the liability is incurred for past services of an employee that vest and accumulate.
- Fixed assets are recorded as capital outlays at the time of purchase.
- Proceeds of long-term obligations are treated as a financing source when received.

The proprietary funds are accounted for on an accrual basis, whereby revenues are recognized when measurable and earned and expenses are recorded as liabilities when incurred and, where applicable, depreciation expense is also included.

The Governmental Accounting Standards Board (GASB) Statement No. 20 "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting" provides that proprietary funds may apply all GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Statements and interpretations of the Financial Accounting Standards Board (FASB), Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARBs) on the Committee on Accounting Procedure.

BASIS OF BUDGETING

Southwest Wisconsin Technical College adopts an annual operating budget which is prepared on substantially the same basis as the financial statements, which are prepared in accordance with GAAP, except budgetary expenditures include encumbrances and budgetary revenues include all property taxes levied for the fiscal year.

DESCRIPTION OF FUNCTIONAL UNITS

Revenues

Southwest Wisconsin Technical College has a diversified funding base composed of property taxes, state aid, student fees, federal grants, and institutionally-generated revenues. Southwest Wisconsin Technical College believes that this diversity, the strength of the local economy, and its fiscal management will continue to provide the resources required to fulfill its mission now and in the future without significant changes in the level of services provided.

Local Government

Local Property Tax Levy Revenue. The debt service mill rate is added to the operational mill rate to get a total mill rate amount. The debt service tax levy is used to pay the principal and interest payments that are due that year. The operational tax levy is used to fund expenditures in the general fund.

State Aids

State Aids and any other revenue derived from State Government.

Student Fees

Fees are collected from students for tuition, materials, and miscellaneous items. Tuition and material fee rates are set annually by the Wisconsin Technical College System based upon estimated total operating expenditures of the districts.

Program Fees: A charge to recover a portion of the cost of operating the instructional areas other than books and consumable supplies.

Material Fees: Charges for instructional materials consumed by the student and/or instructor.

Other Student Fees: Other charges to students such as out-of-state tuition, application fees, and community services fees.

Institutional Revenue

Sales and services, investment income, rentals and other revenues derived from other than governmental sources, except for those more properly coded as other resources.

Federal/State

Grants, contracts, and any other reimbursements received from federal/state government sources.

Expenditures

The Wisconsin Technical College System Board requires each technical college to classify expenditures by function to provide activity detail of our primary activity – instruction. The following is a listing and description of the expenditure functions used by Southwest Wisconsin Technical College.

Instruction

This function includes teaching, academic administration, including clerical support, and other activities related directly to the teaching of students, guiding the students in the educational program, and coordination and improvement of teaching.

Instructional Resources

This function includes all learning resource activities such as the library and audio-visual aids center, learning resource center, instructional media center, instructional resources administration, and clerical support.

Student Services

This function includes those non-instructional services provided for the student body such as student recruitment; student services administration and clerical support; admissions; registration; counseling, including testing and evaluation; health services; financial aids; placement; and follow-up. DEFINITION OF FUNDS

Fund

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with specific regulations, restrictions, or limitations.

General Fund (100)

Governmental Fund Category

The general fund type is available for any legally authorized purpose and is therefore used to account for all revenues and expenditures for the current operations of the district that are not required to be accounted for in another fund.

Special Revenue Fund (200)

A special revenue fund type is used to account for the proceeds and related financial activity of specific revenue sources that are legally restricted for a specific purpose except for major capital projects and expendable trusts. Such a fund requires budgetary accounting and is created either by statute, charter, or board resolution to provide certain activities with definite and continuing revenues. After the fund is created, it usually continues year after year until discontinued or revised by proper legal action.

Generally speaking, activities which are project in nature and not considered to be part of the regular program of the district should be budgeted and controlled through the Special Revenue Fund. Typical inclusions are: Vocational Education Act, Adult Education Act, and Job Training Partnership Act projects. Excluded would be construction or remodeling projects, and trust/agency activities, including student loans.

Capital Projects Fund (300)

The capital projects fund type is used to account for all resources and related financial activity for all capital expenditure projects regarding the acquisition of sites, purchase or construction of buildings (including equipping), lease/purchase of buildings, or remodeling and improvement of buildings. Any acquisition, construction, equipping, remodeling or improvement financed through the proprietary or trust/agency funds must be budgeted and accounted for in the respective fund.

Debt Service Fund (400)

The debt service fund type is used to account for the accumulation of resources for, and the payment of general long term debt and long term lease purchase debt principal and interest.

Proprietary Fund Category

Enterprise Fund (500)

The enterprise fund type is used to record revenues and expenses related to providing goods or services to students, district staff, faculty or the general public. These funds are intended to be self-supporting and are operated in a manner similar to private business. All costs are recovered primarily through user charges. These services complement the educational and general objectives of the District.

Internal Service Fund (600)

Trust and Agency Fund (700)

The internal service fund type is used to account for the financing and related financial activities of goods and services provided by one department of the district to other departments of the district, or to other governmental units on a cost reimbursement basis.

Fiduciary Fund Category

The trust and agency fund is used to account for financial resources held in a fiduciary capacity by the District. These funds account for student financial assistance, student activities, clubs and other student related activities.

Southwest Wisconsin Technical College Capital Projects Fund July 1, 2023 - June 30, 2024

Revenue for Capital Projects includes proceeds from debt of \$4,000,000. This amount is flat from the prior year borrowing level.

The amount of outstanding debt is approximately twenty-fout million. Twelve million this debt is due to the capital expansion project that was completed as approved through the passage of \$31.9 million referendum on 4/1/08. The remaining outstanding debt of approximately twelve million is from annual borrowing for mainteance projects, remodeling and equipment replacment and updgrades. A debt service strategy which sets the annual borrowing in close relationship to annual principal payments, accounts for the consistent level of debt. This capital borrowing plan affords the College the ability to maintain high quality in both equipment and physical plant.

Board Monitoring Report College Council: Culture of Accountability – June 2023

EXECUTIVE SUMMARY

Alignment with Mission, Vision, Values, Purposes, and Strategic Directions

It is the College Council's responsibility to enhance a culture of accountability at the college. We value our employees and want to provide support and resources that can help them do their best work. Our employees put students first and provide them with opportunities for success. By working collaboratively throughout the college, we have developed workgroups and project teams that drive culture efforts. The College Council selects projects based on issues identified in our employee survey results. We use these results to measure our progress toward the strategic priority projects and improve the college culture.

STRATEGIC INITIATIVES DESIGNED TO IMPROVE OUR PERFORMANCE

College Council Roadmap Projects 2022-2023:

Project #1 – Enhance Employee Engagement through Diversity, Equity, and Inclusion (DEI) Leads: Chantel Hampton

Team Members: Robin Hamel, Krista Weber, Lisa P. Riley

Goals:

- Increase engagement and participation at events.
- Finalize DEI Progress Report metrics.
- Facilitate more collaboration between DEI workgroup and faculty.
- Work with consulting company to implement DEI Action Plan

<u>Results:</u>

The Diversity, Equity, and Inclusion Work Group created a Diversity, Equity, and Inclusion Resource Library on the Hub. This resource library is organized by topic and available to all college employees. Resources available are articles, videos, PowerPoint presentations, and handouts utilized during department and division meetings and college forums.

College Council: Culture of Accountability - June 2023

The college once again collaborated with Exhibit Envoy to bring Black and White in Black and White: Images of Dignity, Hope and Diversity in America to the college from January 16 – March 12, 2023. During this timeframe, the college hosted the Black History Month Community Celebration and the ACT Day for area high schools, where over 150 students engaged with the exhibit through a treasure hunt.

The college has sent several folks to conferences and workshops to gain greater knowledge in diversity, equity, and inclusion to use a +1 approach upon returning to the college. A +1 approach means incorporating one new change to positively impact the work they do at the college. Participation included:

- Three employees and three students attended the Wisconsin Conference on Race and Ethnicity.
- Two employees and one student attending Safe Space Training offered by Campus Pride. This training led to a Staff Professional Development Ally Training in April.
- Four employees and two students attended the National Conference on Race and Ethnicity in Higher Education in New Orleans, LA, May 31-June 3, 2023.

A Diversity, Equity, and Inclusion Progress Report is in the draft stage to share the college's progress on DEI efforts, including metrics and measurements. A mid-year and final report are written to share with the college community the progress that has been made.

The college collaborated with The People Company to administer a survey, focus groups, and oneon-one interviews to students, faculty, staff, and preceptors of the Midwifery program to gain insight into students' experiences and the experiences of those who work most closely with the students. A final report was presented. As a result, the Midwifery program now offers diversity, equity, and inclusion-related training for students and faculty two times a semester. Preceptors (clinical site technicians) are also invited to these training courses.

Project #2 - Develop Leaders/Succession Planning

Making leadership development and succession planning at the college a systematic process

Goals:

- Provide leadership training to supervisors on coaching 3-4 times this year.
- Finalize individual professional development plans.

<u>Results:</u>

Dr. Audrey Reille held six sessions with a new leader cohort of twenty people. Topics included Personal Wellness, Taking Full Responsibility, Time Management Part I & II, and a recap session. Jason held a group leadership session with the cohort in March 2023. Dr. Reille also met individually with each cohort member multiple times throughout the year. Individual professional development plans were created and sent to all leaders at the college. These plans will be on the Anthology system in 2023-2024. The Academic Lead model was implemented when eight new leads were selected: Kris Schoville, Joe Randall, Betsy Ralph-Tollefson, Vicky Rundle, Christina Winch, Karen Farner, Jennifer Lame, and Stacey Place. The Franklin University Doctoral and Master Cohorts continually receive great feedback. We will have two Master graduations in 2023. A group of employees and Board member will present on the topic of Succession Planning at the ACCT Leadership Congress in the Fall of 2023

Project #3 – Campus-Wide Universal Design – Phase 2

Leads: Christena Bowers

Team Members: Derek Dachelet, Demi Vetesnik, Chantel Hampton, Janine Schmitz, Kelsey Wagner, Josh Krohn, Betsy Ralph-Tollefson, Josh Bedward

Goals for Phase 2:

- Development of a Universal Design (UD) Resource guide on the HUB intranet for staff and faculty that will include trainings, articles, resources, links to other sites, etc. as well as a resources area in the Knox Learning Center.
- Train-the-trainers will be mentoring other employees.
- Staff and faculty will incorporate a universal design project into their TAP plans for the 2022-2023 academic year.
- More goals are being finalized Summer '22

Results:

A Universal Design (UD) resource page on the Hub has been created, and is regularly updated with new content to assist faculty and staff with UD implementation in their areas. The resources are organized in an easy-to-use format depending on the needs of the site visitor. A small group of employees completed the Universal Design certificate and stepped into mentor roles. Their responsibilities currently include assisting with TAP plans and being available to employees' seeking assistance with Universal Design ideas and implementation. All faculty and staff included a Universal Design goal in their TAPs for 22/23 year and were assigned a coach they could seek guidance and assistance from. The UD committee is currently working with a consultant to create a rubric for measuring Universal Design implementation, which will assist in measuring efforts and success of other future identified goals.

Project #4 –Benefits Enhancements for Employee Recruitment and Retention

Leads: Connie Haberkorn, Demi Vetesnik

Team Members: Chris Reuter, Jordyn Poad, Seth Henkel, Christina Hill, Crystal Brown

Goals:

- · Wellness- research additional mental health benefits and resources.
- Revamp structure of wellness incentive payouts.
- · Review of potential leave options such as leave options, and additional spring break.
- · Review additional benefits options for all demographics.
- Improve online accessibility for HR benefits, reports, and forms example: new hire forms for students and adjuncts.

Results:

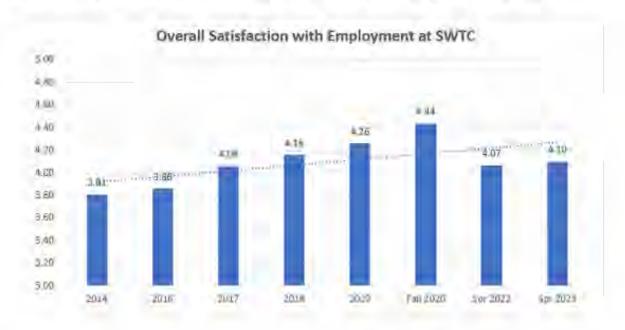

The team collected employee feedback from employees with the help of Gallagher Benefit Services. The survey response rate was high with 144 out of 195 employees responding and the focus groups were engaging. The team presented recommendations to the Executive Team. Due to budget constraints and employee feedback (90% preferred a pay increase versus a benefit increase), a larger compensation increase was presented to the Board. We may reconsider these benefit recommendations at another time.

Employee Satisfaction Survey Results 2023

We engage Ruffalo Noel Levitz to conduct an Employee Satisfaction Survey on a bi-annual basis. In the "off" years, we conduct an Employee Satisfaction Mini-Survey to check on our progress in meeting our strategic initiatives. The message comes from HR, but the survey effort is led by Mandy Henkel, College Effectiveness Director. The last mini survey was completed in May 2023.

Grants 2022-2023

It is important for the College to recognize grant opportunities to initiate, support and expand programs and training. HR and DEI currently manage two grants:

- Wisconsin Technical College System (WTCS) Professional Growth Grant
- Wisconsin Technical College System (WTCS) Capacity Building for Equity and Inclusion in Career and Technical Education Grant

HUMAN RESOURCE AND DEI HIGHLIGHTS 2022-2023

Many exciting things have been happening in Human Resources and DEI over the last year to improve our processes.

- All students began using the new timekeeping system. This process was previously completed manually. All adjuncts using the timekeeping system by 12/31/2023.
- Professional Development Plans for Faculty will be done in the Anthology system in the Fall 2023, like the Annual Evaluation and Coaching Session processes.
- Our first Black History Month social was held on campus in Spring 2023. A small group of employees worked closely with district high schools and other community organizations to coordinate. The
- Monthly benefit and informational meetings regarding HR topics, wellness, mental health, financial savings opportunities at Southwest Tech began in January of 2023. These meetings have had good representation from across campus. Optum RX was selected as our vendor through the benefits consortium as our prescription drug provider.
- The Chief Academic Officer hiring process was successful with the acceptance of Dr. Cynde Larsen to her new role.
- · The new Academic Lead model is in the process of implementation.

STRENGTHS

- The College Council has strong representation across the college and is a direct source of employee feedback. Survey participation is high among employees.
- The WTCS professional growth and diversity/inclusion grants support training and development efforts. The college has a strong participation in professional development activities.
- Although turnover rates are higher, we are still an employer of choice in Southwest Wisconsin.
- We have excellent tuition reimbursement and professional development opportunities for our employees. The Doctoral cohort is an amazing example of the professional development support that the Board of Directors provide to college employees. Cohort members recently completed courses in Teaching in Higher Education and Organizational Leadership.

WEAKNESSES/OPPORTUNITIES

- The College Council produces results with projects in the past; however, workgroups have
 not had the same level of expectations or accountability for results. We will align efforts with
 an expectation to achieve results for student access, completion, and post-graduate success.
- Communication is and will remain a continuous improvement item.
- We need to find more ways for employees to give and receive honest feedback. Anonymity is
 not bringing out the best in us and it does not lead to the opportunity to discover the real
 issues nor seek mutually beneficial solutions.
- Consistently finding ways to strengthen employee health and wellness is a challenge.

Page 6 of 9

College Council: Culture of Accountability - June 2023

- Supervisors need to improve timing and documentation for addressing employee performance and accountability.
- HR must improve methods to recruit diverse faculty and staff to better reflect our student population.

23-24 STRATEGIC INITIATIVES/COUNCIL PROJECTS

Project #1 – Enhance Employee Engagement through Diversity, Equity, and Inclusion (DEI) Leads: Chantel Hampton

Team Members: Robin Hamel, Lisa P Riley, Tyler Platz, Jen Fonder, Akshay Sukhwal

Goals:

- Improve recruiting methods to be more reflective of the student population. Related activities will be funded by the WTCS Capacity Building Grant for 2023-2024.
- Chantel Hampton was assigned more load to focus on special populations student success. Along with the Universal Design benchmark audit, she will also further develop measurement tools for DEI/Special Population student success. She will collaborate closely with academics to identify and expand on successful practices to impact the most students.

Project #2 - Develop Leaders/Succession Planning -Phase 2

Leads: Connie Haberkorn, Krista Weber, Cynde Larsen, Demi Vetesnik

Goals:

- Develop further opportunities for leadership development and succession planning utilizing a systematic process. Expand the "Acting President" concept into other areas of the college.
- Implement a leadership onboarding plan for the Academic Leads to receive training and support in their first year.
- Expand professional development plans and goals on Anthology, formalizing an annual process for all employees.

Project #3 – Campus-Wide Universal Design – Phase 3

Leads: Christena Bowers

Team Members: Derek Dachelet, Demi Vetesnik, Chantel Hampton, Janine Schmitz, Kelsey Wagner, Josh Krohn, Betsy Ralph-Tollefson, Josh Bedward

Goals:

- Develop a working benchmark system to measure our Universal Design (UD) performance at the institutional level by September 30. Chantel Hampton will have dedicated time to working on this action, supported by grand funding.
- 100% of Team Action Plans (TAP) teams (both staff and faculty) will be working on a
 goal/project related to Universal Design for the 23-24 academic year, supported by UD
 coaches to ensure they impact: 1) student success plan implementation 2) high-value
 Programs (either innovating the curriculum/industry or increasing enrollments in the high value
 programs, and 3) helping Special Populations specifically be more successful in access,
 completion, and post-graduate success
