

Choosing your Macintosh

Recommended systems: (Anyone of the three systems below is appropriate for the Graphic and Web Design Program. Select the one that meets your personal and financial needs)

- iMac
- MacBook Pro
- MacBook

System Requirements:

After selecting the model you want, you'll be asked to choose a processor speed and or screen size. Any of the selections are appropriate for your educational needs. Once you've made your selection, you'll be asked to configure your system for additional components.

- We recommend you upgrade the RAM or memory to 4 GB
- You may want to consider adding the AppleCare Protection Plan
- Adding any of the other options is up to you, however they are not necessary for the Graphic and Web Design Program
